Getting to Know Your Phone

Visit att.com/devicesupport for more information

AT&T Music

Your phone is a complete music experience from an integrated music player to music news, chat and streaming music. Even use your phone to identify song titles and artist when you're out and about.

- In Idle mode, press the Center key  > Press AT&T Music .

-  Listen to your music on an integrated Music Player
-  Personalize with ringtones and Answer Tones™ under Shop Tones
-  Instantly ID the title and artist of a song with MusicID
-  Enjoy dozens of commercial free music stations with Streaming Music
-  Watch the latest music videos under Music Videos

Transferring Music

Listen to music on your phone. Transfer your favorite tunes today!

1. You must convert your music to either .MP3, .AAC, or .AAC+ format using the media player of your choice.
2. Remove the battery and insert the microSD™ card* (gold contacts facing down) into the slot at the top of the phone.
3. Power on the phone and connect it to your PC using a USB data cable*.
4. The PC recognizes the phone as a Removable Disk under My Computer. Open the folder where your music is stored and transfer your files by dragging and dropping them onto the Removable Disk icon.
5. When finished, disconnect the USB cable.

Warning! Do not disconnect phone while file transfer is in progress.

NOTE: The number of files you can store depends on the size and format options of the memory card.

***microSD card and USB cable sold separately: go to att.com**

Requirement: Windows 2000 or later. Not compatible with Mac OS.

Playing Music

Listen to music from our favorite artists right from your device. To listen to music that you have transferred to your device, follow these quick easy steps.

- In idle mode, press Center key  > Select  > Music Player .
- Search music by Playlists, Artists, Albums, Genres or Composers.
- Scroll up/down and Press Center key  to select.
- Up Navigation key pauses music and red End key exits the music player.

Answering a call while playing music

- When a call comes in, your music will pause to ring and show caller ID
 - Answer: press Left Soft key. When done, press red End key. Music will continue to play.
 - Ignore: press Right Soft key to send a call into voicemail. Playback will resume automatically.

Cellular Video

Cellular Video brings your phone to life. Watch news, sports, weather and entertainment clips while on the go.

- In Idle mode, press the  key.
- Once connected, select the program options you wish to view and press Center key .
- Select the clip you want to play and press Center key .

Personalize your Cellular Video content:

- Select Customize Cellular Video from the Cellular Video home screen.
- Select Edit My Favorites and press Center key.
- Select the content you would like to appear on your Cellular Video Home screen and press the Center key.

Access to Cellular Video requires a MEdia™ Max Bundle. Parental Controls available. See box insert for details.
