Business Connect Plans

Wirelessly enable your enterprise data network for backup and primary connectivity.

AT&T® extends your network to more places and delivers true diversity to your business continuity solutions.

Partner with the leader in wireless.
Experience wireless with a superior network, global reach and end-to-end solutions.

The power of Wireless WAN (WWAN) connectivity.
Now you have the flexibility to wirelessly enable your enterprise data network in locations where traditional wireline connections are not available or feasible in fixed or mobile environments. And, for backup connectivity, you can enjoy the added confidence of knowing that you have true diversity via AT&T’s wireless data network.

AT&T’s network has you covered.
AT&T has the largest national high-speed wireless data network, enabling WWAN connectivity in over 17,000 cities and towns and along over 40,000 miles of U.S. highways. And, AT&T is supercharging its network to deliver broadband speeds to better support the needs of your applications.

Flexible network-to-network connections and security options.
AT&T offers enterprise customers a number of options for extending host connectivity to mobile users or devices via Frame Relay or Network Initiated VPN.

The right wireless data plan for you.
Select from a range of data service plans to fit the needs of your WWAN application, including:

- **Telemetry**—low-usage pricing options for lower-bandwidth applications.
- **Capped**—pricing option that provides low costs in low-usage months, predictable and competitive high-end cost protection in higher-usage months.
- **Backup/Primary**—higher-usage pricing options with low overage.

AT&T can deploy an enterprise-class WWAN solution for your network quickly—wirelessly enabling your enterprise data network for primary or backup connectivity via the largest high-speed data network in the nation.

1 Data usage pooling is available at no additional charge. Restrictions apply. See Terms and Conditions below for details.

2 The total monthly charges for the Monthly Service Charge and additional domestic data usage charges are capped at a maximum of $129.99/month. If a line hits the cap for three consecutive months, AT&T thereafter reserves the right to move such line, without notice, to the Business Connect $99.99 5000 MB plan.

3 Data usage pooling is available for an additional $4/month per line. Restrictions apply. See Terms and Conditions below for details.

4 Data usage pooling is available for an additional $5/month per line. Restrictions apply. See Terms and Conditions below for details.

5 With a voice-capable WWAN or Telemetry data device, voice service is available at the default pay-per-use voice rates as set forth below. Activation of wireless voice plans in combination with these Business Connect plans is otherwise prohibited.

6 With a voice-capable WWAN or Telemetry data device, voice service is available at the default pay-per-use voice rates as set forth below. Activation of wireless voice plans in combination with these Business Connect plans is also permitted.

Note: Business Connect plans are intended for use with machine-to-machine and/or Wireless Wide Area Network (WWAN) applications and not for support of individual remote or mobile workers using a laptop or PDA. For plans designed for laptop and PDA customers, see DataConnect rate plan brochure.

AT&T also imposes the following charges: a Regulatory Cost Recovery Fee of up to $1.25 to help defray its costs incurred in complying with obligations and charges imposed by State and Federal telecom regulation, a gross receipts surcharge, and State and Federal Universal Service charges. The Regulatory Cost Recovery Fee is not a tax or a government-required charge.

### ELIGIBILITY:
Valid eligible business or government agreement for wireless service required. Business Connect plans are restricted to corporate responsibility end users ("Corporate Responsibility Users" or "CRUs"). Individual responsibility end users (a.k.a. "Sponsorship Employees") may not activate lines under Business Connect plans. Business customer and CRU service address(es) must be within an AT&T-owned wireless network coverage area. Fixed wireless deployments must be installed within an AT&T-owned wireless network coverage area. Ask your AT&T account representative for address verification. Business Connect plans only work with select equipment, features, billing services and service offerings. **VOICE CALLING:** If you have a voice-capable device, unless you request voice blocking or select a qualified voice plan (if available), voice calls are $0.40 per minute on AT&T’s wireless network and $0.69 per minute for domestic roaming voice calls off AT&T’s wireless network. See AT&T Nation<sup>®</sup> Rate Plan map for voice coverage area. **MESSAGING:** The default rate is $0.20/message for Text/Instant Messages and $0.30/message for Picture/Video Messages. Charges for international messages from the U.S. are $0.20/message for Text Messages and $0.50/message for Picture/Video Messages. Additional charges for premium content apply. **MISCELLANEOUS:** AT&T strongly encourages the use of compatible customer-provided and/or third-party security solutions, such as virtual private networks (VPNs). Additional eligibility, billing, usage and other restrictions and terms apply. See General Terms and Conditions and applicable Additional Terms that follow.
MAKING BUSINESS RUN BETTER

I. GENERAL TERMS AND CONDITIONS APPLICABLE TO AT&T'S BUSINESS CONNECT WIRELESS DATA SERVICES, INCLUDING BUT NOT LIMITED TO, FEATURES THAT MAY BE USED WITH SUCH WIRELESS DATA SERVICES AND WIRELESS CONTENT.

AT&T provides wireless data services, including but not limited to, features that may be used with wireless data services and wireless content ("Services"). The absolute capacity of the wireless data network is limited. Accordingly, service is only provided for circumscribed purposes and pricing for Data Services is device dependent, based on the transmit and receive capacity of each device. A pricing plan designated for one type of device may not be used with another device. These Services may be subject to credit approval and may only be available when combined with certain voice rate plans. An activation fee of $18 may apply to each new line activated on a Business Connect plan of $9.99, $11.99, $13.99, $15.99 or $17.99. An activation fee of $36 may apply to each new line activated on a Business Connect plan of $29.99 or higher. Compatible data-enabled wireless device required. Usage/Billing: Usage and monthly fees will be charged as specified in your plan. DATA TRANSPORT IS BILLED IN FULL-KILOBYTE INCREMENTS, AND ACTUAL TRANSPORT IS ROUNDED UP TO THE NEXT FULL-KILOBYTE INCREMENT AT THE END OF EACH DATA SESSION FOR BILLING PURPOSES. AT&T CHARGES A FULL KILOBYTE OF DATA TRANSPORT FOR EVERY FRACTION OF THE LAST KILOBYTE OF DATA TRANSPORT USED ON EACH DATA SESSION. NETWORK OVERHEAD, SOFTWARE UPDATE REQUESTS, AND RESEND REQUESTS CAUSED BY NETWORK ERRORS CAN INCREASE MEASURED KILOBYTES. AIRTIME AND OTHER MEASURED USAGE ARE BILLED IN FULL-MINUTE INCREMENTS AND ROUNDED UP TO THE NEXT FULL-MINUTE INCREMENT AT THE END OF EACH CALL FOR BILLING PURPOSES. Data sent and received includes, but is not limited to downloads, email, overhead and software update checks. Unless designated for International or Canada use, prices and included use apply to EDGE/GPRS and BroadbandConnect access and use on AT&T's wireless network and its partner wireless networks within the United States and its territories (Puerto Rico and the U.S. Virgin Islands), excluding areas within the Gulf of Mexico. Usage on networks not owned by AT&T is limited as provided in your data plan. Charges will be based on the location of the site receiving and transmitting service and not the location of the subscriber. BroadBandConnect access requires a compatible, eligible 3G device. Overage is billed by the kilobyte. Service charges paid in advance for monthly or annual Services are nonrefundable. Some Services may require an additional monthly subscription fee and/or be subject to additional charges and restrictions. See applicable rate plan materials for complete pricing and terms. Prices do not include taxes, directory assistance, roaming, universal services fees or other exactions and are subject to change. In order to assess your usage during an applicable billing period, you may obtain approximate usage information by calling customer service or using one of our automated systems.

Voice: If you have a voice-capable device, unless you request voice blocking, select a data plan that restricts voice access or select a qualified voice plan, the default rate for voice calls on AT&T's wireless network are $0.40 per minute and $0.69 per minute for domestic roaming voice calls off AT&T's wireless network (rates are subject to change without notice). Additional taxes and surcharges may apply. See AT&T Nation® map at store or att.com/wireless for default wireless voice coverage area. If you request voice blocking or your selected data plan restricts voice access, all voice calling capabilities (except for outgoing calls from the device to 911 or 611) will be blocked, including without limitation, calls from 911 or 611 to the device. If you have a wireless voice plan, wireless voice calls are billed as provided in your wireless voice rate plan. Roaming: Roaming charges for wireless data or voice service may be charged with some plans when outside AT&T's wireless network. Display on your device will not indicate whether you will incur roaming charges. Services originated or received while outside your plan's included coverage area are subject to roaming charges. Use of Services when roaming is dependent upon roaming carrier's support of applicable network technology and functionality. Check with roaming carriers individually for support and coverage details. Billing for domestic and international roaming usage may be delayed up to three billing cycles due to reporting between carriers. You may be required to (1) use a device programmed with AT&T's preferred roaming database; and (2) have a mailing address and live in the United States, Puerto Rico or the U.S. Virgin Islands. International Roaming: See att.com/wirelesssinternational or dial 1-866-246-4852 for more information and for a list of currently available countries and carriers. Compatible international-capable device required. Certain countries and/or carriers within a roaming zone may be unavailable with certain plans or Services while roaming. Availability, quality of coverage and Services while roaming are not guaranteed. Rates apply to AT&T's wireless customers only. Certain tenure, billing and credit restrictions and additional charges may apply. Many devices including iPhone transmit and receive data messages without user intervention and can generate unexpected charges when taken out of the United States. Cancellations/Early Termination Fee: An Early Termination Fee of $175 may be assessed against you in the event that you terminate your Wireless Service Agreement and/or selected plan before the expiration of its term. For Service activated on or after May 25, 2008, the Early Termination Fee will be reduced by $5 for each full month toward your minimum term that you complete. You may cancel your service, for any reason and without incurring the Early Termination Fee, within thirty (30) days of signing your Wireless Service Agreement, PROVIDED, however, that if you cancel service you will remain responsible for any service fees and charges incurred. If you cancel within three (3) days of signing your Wireless Service Agreement, you will be entitled to a refund of your activation fee, if any. If you exercise this option, you may be required to return devices and associated accessories purchased in connection with your Wireless Service Agreement. Service Availability and Access/Coverage: AT&T does not guarantee availability of wireless network. Services may be subject to certain equipment and compatibility/limitations including memory, storage, network availability, coverage, accessibility and data conversion limitations. Services (including without limitation, eligibility requirements, plans, pricing, features and/or service areas) are subject to change without notice. When outside coverage area, access will be limited to information and applications previously downloaded to or resident on your device. Coverage areas vary between AT&T BroadbandConnect, EDGE and GPRS. AT&T BroadbandConnect only available in select markets. See coverage map(s), available at store or from your sales representative, for details. AT&T BroadbandConnect download speeds only available on the AT&T BroadbandConnect network. Actual download speeds depend upon device characteristics, network, network availability and coverage levels, tasks, file characteristics, applications and other factors. Performance may be impacted by transmission limitations, terrain, in-building/in-vehicle use and capacity constraints. Information/Content: Certain information or content is provided by independently owned and operated content providers or service providers who are subject to change at any time without notice. AT&T IS NOT A PUBLISHER OF THIRD-PARTY INFORMATION OR CONTENT AND IS NOT RESPONSIBLE FOR ANY OPINIONS, ADVICE, STATEMENTS, OR OTHER INFORMATION, SERVICES OR GOODS PROVIDED BY THIRD PARTIES. Third-party content or service providers may impose additional charges. Policies regarding intellectual property, privacy and other policies may differ among AT&T's content or service providers and you are bound by such policies when you visit their respective sites or use their services. It is your responsibility to read the rules or service agreements of each content provider or service provider. Any information you involuntarily or voluntarily provide third parties is governed by their policies. The accuracy, appropriateness, content, completeness, timeliness, usefulness, security, safety, merchantability, fitness for a particular purpose, transmission or correct sequencing of any information or downloaded data is not guaranteed or warranted by AT&T or any content providers or other third party. Delays or omissions may occur. Neither AT&T nor its content providers, service providers or other third parties...
shall be liable to you for any loss or injury arising out of or caused, in whole or in part, by any information acquired through the Service. You acknowledge that every business or personal decision, to some degree or another, represents an assumption of risk, and that neither AT&T nor its content and service providers or suppliers, in providing access to information, underwrites, can underwrite, or assumes your risk in any manner whatsoever. Prohibited and Permissible Uses: Except as may otherwise be specifically permitted or prohibited for select data plans, data sessions may be conducted only for Wireless Wide Area Network (WWAN) applications (e.g., machine-to-machine connections). While most common uses for Wireless Wide Area Network (WWAN) applications are permitted by your data plan, there are certain uses that cause extreme network capacity issues and interference with the network and are therefore prohibited. Examples of prohibited uses include, without limitation, the following: (i) server devices or host computer applications; (ii) “auto-responders,” “cancel-bots,” or similar automated or manual routines which generate excessive amounts of net traffic, or which disrupt net user groups or email use by others; (iii) “spam” or unsolicited commercial or bulk email (or activities that have the effect of facilitating unsolicited commercial email or unsolicited bulk email); (iv) any activity that adversely affects the ability of other people or systems to use either AT&T’s wireless services or other parties’ Internet-based resources, including “denial of service” (DoS) attacks against another network host or individual user; (v) accessing, or attempting to access without authority, the accounts of others, or to penetrate, or attempt to penetrate, security measures of AT&T’s wireless network or another entity’s network or systems; downloading movies using P2P file sharing services, redirecting television signals for viewing on Personal Computers, web broadcasting, and/or for the operation of servers, is prohibited. Furthermore, plans (unless specifically designated for tethering usage) cannot be used for any applications that tether the device (through use of, including without limitation, connection kits, other phone/PDA-to-computer accessories, Bluetooth® or any other wireless technology) to Personal Computers (including without limitation, laptops), or other equipment for any purpose. Accordingly, AT&T reserves the right to (i) deny, disconnect, modify and/or terminate Service, without notice, to anyone it believes is using the Service in any manner prohibited or whose usage adversely impacts its wireless network or service levels or hinders access to its wireless network, including without limitation, after a significant period of inactivity or after sessions of excessive usage and (ii) otherwise protect its wireless network from harm, compromised capacity or degradation in performance, which may impact legitimate data flows. You may not send solicitations to AT&T’s wireless subscribers without their consent. You may not use the Services other than as intended by AT&T and applicable law. Plans are for individual, non-commercial use only and are not for resale. AT&T may, but is not required to, monitor your compliance, or the compliance of other subscribers, with AT&T’s terms, conditions, or policies. Security: AT&T DOES NOT GUARANTEE SECURITY. Data encryption is available with some, but not all, Services sold by AT&T. If you use your device to access company email or information, it is your responsibility to ensure your use complies with your company’s internal IT and security procedures. Changes to the terms and conditions: These terms and conditions may be changed from time to time. AT&T will post the most current version of these terms and conditions at http://www.wireless.att.com/businesscenter/business-programs/mid-large/wan.jsp or other appropriate location. Please check these regularly to inform yourself about changes to the terms and conditions. Access Requirements: Additional hardware, software, subscription, credit or debit card, Internet access from your compatible PC and/or special network connection may be required and you are solely responsible for obtaining all such requirements. Some solutions may require third-party products and/or services, which are subject to any applicable third-party terms and conditions and may require separate purchase from and/or agreement with the third-party provider. AT&T is not responsible for any consequential damages caused in any way by the preceding hardware, software or other items/requirements for which you are responsible. Miscellaneous: Not all plans or Services are available for purchase or use in all sales channels, in all areas or with all devices. AT&T is not responsible for loss or disclosure of any sensitive information you transmit. AT&T’s wireless services are not equivalent to landline Internet. AT&T is not responsible for nonproprietary services or their effects on devices. If applicable, use of Desktop Toolbar requires compatible home computer products. AT&T RESERVES THE RIGHT TO TERMINATE YOUR SERVICES WITH OR WITHOUT CAUSE, INCLUDING WITHOUT LIMITATION, UPON EXPIRATION OR TERMINATION OF YOUR WIRELESS SERVICE AGREEMENT. Callers ID blocking is not available when using the Services, and your wireless number is transmitted to Internet sites you visit. You may receive unsolicited messages from third parties as a result of visiting Internet sites, and a per-message charge may apply whether the message is read or unread, solicited or unsolicited. Additional Terms: See below for additional terms relating to specific Services and rate plans. In addition, all use of AT&T’s wireless network and the Services is governed by AT&T’s Acceptable Use Policy, which can be found at att.com/AcceptableUsePolicy, as determined solely by AT&T. AT&T can revise its Acceptable Use Policy at any time without notice by updating this posting. Use of the Services is subject to Terms and Conditions of your Wireless Service Agreement. See Wireless Service Agreement, att.com/wireless or AT&T Customer Service for additional conditions, restrictions, privacy policy and information. Intellectual Property: All trademarks, service marks and trade names used on or in connection with the Services are the property of their respective owners. You must respect the intellectual property rights of AT&T, our third-party content providers, and any other owner of intellectual property whose protected property may appear on any website and/or dialogue box controlled by AT&T or accessed through the AT&T’s websites. Except for material in the public domain, all material displayed in association with the Service is copyrighted or trademarked. Except for personal, non-commercial use, trademarked and copyrighted material may not be copied, downloaded, redistributed or otherwise exploited, in whole or in part, without the permission of the owner.
II. ADDITIONAL TERMS APPLICABLE TO BUSINESS CONNECT FOR SPECIFIC WIRELESS DATA SERVICES, TEXT, INSTANT MESSAGING AND PICTURE/VIDEO MESSAGING.

Messages are limited to 160 characters per message. Premium text and picture/video messages are charged at their stated rates. Standard rates apply to all incoming messages when in the U.S. Different, non-standard per message charges apply to international messages sent from the U.S. Text, Instant, Picture, and Video messages, including downloaded content, not delivered within 7 days will be deleted. AT&T reserves the right to change this delivery period as needed without notification. You are charged for each part of messages that are delivered to you in multiple parts. Picture/Video Messaging, data plan, and Text Messaging may need to be provisioned on an account in order to use Picture/Video Messaging. Some elements of Picture/Video messages may not be accessible, viewable, or heard due to limitations on certain wireless phones, PCs, or e-mail. AT&T reserves the right to change the Picture/Video message size limit at any time without notification. Picture/Video Messaging pricing is for domestic messages only. When a single message is sent to multiple recipients, the sender is charged for one message for each recipient and each recipient is charged for the message received. Text message notifications may be sent to non-Picture/Video Messaging subscribers if they subscribe to Text Messaging. Fixed wireless deployments: INSTALLATION MUST BE WITHIN AN AT&T-OWNED WIRELESS NETWORK COVERAGE AREA AND USAGE OF THE SERVICES ON OTHER CARRIERS' WIRELESS NETWORKS (“OFFNET USAGE”) IS PROHIBITED. If your fixed wireless deployment incurs any offnet usage, AT&T may at its option terminate your wireless service or access to data Services, deny your continued use of other carriers’ coverage, or change your plan to one imposing usage charges for offnet usage. AT&T will provide notice that it intends to take any of the above actions and you may terminate your agreement. Mobile wireless deployments: If your mobile wireless deployment Offnet Usage exceeds 10% of the kilobytes included with your plan during any two consecutive months, AT&T may at its option terminate your wireless service or access to data Services, deny your continued use of other carriers’ coverage, or change your plan to one imposing usage charges for offnet usage. AT&T will provide notice that it intends to take any of the above actions and you may terminate your agreement. Business Connect plans (excluding $29.99 plan): Consolidated billing is required. WIN Advantage* may also be required. AT&T will not provide Customer Care support on an individual subscriber basis, including without limitation, 611 calls from the device into the AT&T Customer Care support center. For Customer Care support, you must go through one designated contact, such as your telecom manager or system administrator, for all your CRUs under the plan. Pooling: Within a single Foundation Account (FAN), Customer’s CRUs with pooling on an eligible Business Connect Plan (“Pooled Plan”) aggregate or “pool” their included data usage (“Included Usage”), creating a “Pool.” To pool together, each CRU in the Pool must subscribe to a Pooled Plan that has the same amount of Included Usage and the same Additional Kilobyte charge (“Similar Pooled Plan”). Every billing cycle, each CRU first uses his or her Included Usage. If a CRU does not use all his or her Included Usage it creates an underage in the amount of unused kilobytes (“Underage”). If a CRU uses more than his or her included usage it creates an overage with respect to kilobytes of data usage (“Overage”). The Pool’s Underage kilobytes and Overage kilobytes are then aggregated respectively and compared. If the aggregate Underage kilobytes exceed the aggregate Overage kilobytes, then no CRU in the Pool pays Additional Kilobyte charges. If the aggregate Overage kilobytes exceed the aggregate Underage kilobytes, then the ratio of Underage kilobytes to Overage kilobytes is applied to the data usage of each CRU in the Pool with Overage Usage, resulting in a monetary credit against the corresponding Additional Kilobyte charges. For example, if a Pool has 900 Underage kilobytes and 1,000 Overage kilobytes (90%), then each CRU with Overage Usage will receive a credit equal to 90% of his or her Additional Kilobyte charges. CRUs changing price points or migrating to Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. Customer may have more than one Pool within a FAN provided that Customer may only have one Pool for Similar pooled Plans within a FAN; however, an individual CRU can only be in one Pool at a time. AT&T reserves the right to limit the number of CRUs in a Pool due to business needs and system limitations. CRUs on Pooled Plans and CRUs participating in a legacy Telemetry Connect plan pool created prior to February 17, 2006 (“Legacy Pool”) cannot be in the same Pool but can be within the same FAN. End users on non-pooling AT&T plans may be included in the same FAN as CRUs on pooled plans; however, these non-pooling end users will not receive the pooling benefits or contribute Included Usage to a pool.

For more information, please call 866-9ATT-B2B (866-928-8222) or visit att.com/wirelessbusinesscenter.
