## Release Briefs

The latest enhancements in the Premier experience

---

### Find the right Mobile Select plan faster

If you're shopping for Mobile Select plans in Premier Online Care, comparing plans just got easier. Now data, talk and text allowances are shown on screen, so you no longer have to open each plan individually to see the plan details.

---

### Better searching in Premier eBill

If you're a company administrator, you can now use the "Search" functionality in eBill to pull up BANs and CTNs that are outside of the FAN that is in context. This allows you to quickly find the account you're looking for.
