Release Briefs

The latest enhancements in the Premier experience

The AT&T Business Trade-In Program is here

Company administrators can now trade-in devices in bulk through Premier and earn credit for those devices on their AT&T account. You can trade-in up to 10 different device types for a total of up to 25,000 devices on the same form. This program is available in both Premier Online Store and Premier Online Care.

New Premier Homepage section: My Reports

Now company administrators, with the ability to run inventory reports, can retrieve them right from the Homepage. There you'll see a new section called "My Reports." This new section shows any requested inventory report that is ready for download.
