ENTERPRISE CUSTOMERS: ADDITIONAL SERVICE AND EQUIPMENT RELATED TERMS

“AT&T” or “we,” “us” or “our” refers to AT&T Mobility LLC, acting on behalf of its affiliates doing business as AT&T or other brands owned by AT&T. “You” or “your”, “my” or “I” refers to the person or entity that is the customer of record and/or its Corporate Responsibility Users (“CRUs”), as appropriate.

PLEASE READ THESE TERMS OF SERVICE CAREFULLY TO ENSURE THAT YOU UNDERSTAND EACH PROVISION, INCLUDING OUR USE OF YOUR LOCATION INFORMATION (SEE SECTION 1.6).

This document, including the AT&T Privacy Policy Located at att.com/privacy, the terms of service for wireless products, features, applications, and services (including content and other AT&T services included with your wireless service) (“Services”) not otherwise described herein that are posted on applicable AT&T websites or devices or contained in AT&T printed materials, and any documents expressly referred to herein or therein, constitute “Sales Information” under your service agreement with us (“Enterprise Agreement”) and are incorporated by reference therein.

AT&T’s wireless network may provide broadband access to the Internet. For more information about how AT&T helps transmit information to points on the Internet and how we manage our network, please see the Broadband Information page which can be found at: www.att.com/broadbandinfo.

1.0 TERMS RELATING TO YOUR DEVICE AND CONTENT

1.1 Your Device

AT&T wireless Service(s) may be used with: (a) Equipment that contains a SIM that is assigned to your account (“Device”) and/or, (b) Equipment that is designed and purchased for use exclusively on AT&T’s network. Your Device must be compatible with, and not interfere with, our Services and must comply with all applicable laws, rules, and regulations. We may periodically program your Device remotely with system settings for roaming service, to direct your Device to use network services most appropriate for your typical usage, and other features that cannot be changed manually. Some device manufacturers will no longer pre-load certain applications into the device memory. As a result, AT&T may remotely pre-load certain applications to your device at activation and periodically update those applications. You can delete any applications that AT&T remotely pre-loads on your device.

You agree that you won’t make any modifications to your Equipment or its programming to enable such Device to operate on any other system. AT&T may, at its sole and absolute discretion, modify the programming to enable the operation of such Device on other systems.

If you bought a Device from AT&T, it may have been programmed with a SIM lock which will prevent it from operating with other compatible wireless telephone carriers’ services. If you wish to use this Device with the service of another wireless telephone carrier, you must enter a numeric Unlock Code to unlock the phone. AT&T will provide the Unlock Code upon request, provided that you meet certain criteria including, but not limited to the following: (a) you have paid for your Device in full; (b) your account has been active for at least sixty days and is in good standing (i.e. it has no past due amount or unpaid balance owed AT&T); (c) you have fulfilled your service commitment by expiration of any contractual term, upgrading to a new Device under AT&T’s standard or early upgrade policies, or payment of any applicable ETF; (d) your Device has not been reported lost or stolen; and (e) AT&T has
the Unlock Code or can reasonably obtain it from the manufacturer. AT&T will unlock a maximum of five phones per account, per year. For Devices sold with a Prepaid Plan, AT&T will provide you with the Unlock Code upon request if you provide a detailed receipt or other proof of purchase of the phone and AT&T has the Unlock Code or can reasonably obtain it from the manufacturer. For further details on eligibility requirements and for assistance on obtaining the Unlock Code for your handset, please call 1-800-331-0500 or visit an AT&T company store.

You are solely responsible for complying with U.S. Export Control laws and regulations and the import laws and regulations of foreign countries when traveling internationally with your Device.

1.2 Where and How Does AT&T Service Work?

AT&T does not guarantee availability of wireless network. Services may be subject to certain Device and compatibility/limitations including memory, storage, network availability, coverage, accessibility and data conversion limitations. Services (including without limitation, eligibility requirements, plans, pricing, features and/or service areas) are subject to change without notice.

When outside AT&T’s coverage area, access will be limited to information and applications previously downloaded to or resident on your device. Coverage areas vary between AT&T network technologies. See coverage map(s), available at store or from your sales representative, for details or the coverage map at www.att.com/coverage-viewer.

Actual network speeds depend upon device characteristics, network, network availability and coverage levels, tasks, file characteristics, applications and other factors. Performance may be impacted by transmission limitations, terrain, in-building/in-vehicle use and capacity constraints.

1.3 What Information, Content, And Applications Are Provided By Third Parties?

Certain information, applications, or other content is provided by independently owned and operated content providers or service providers who are subject to change at any time without notice.

AT&T IS NOT A PUBLISHER OF THIRD-PARTY INFORMATION, APPLICATIONS, OR OTHER CONTENT AND IS NOT RESPONSIBLE FOR ANY OPINIONS, ADVICE, STATEMENTS, OR OTHER INFORMATION, SERVICES OR GOODS PROVIDED BY THIRD PARTIES.

Third-party content or service providers may impose additional charges. Policies regarding intellectual property, privacy and other policies or terms of use may differ among AT&T’s content or service providers and you are bound by such policies or terms when you visit their respective sites or use their services. It is your responsibility to read the rules or service agreements of each content provider or service provider.

Any information you involuntarily or voluntarily provide to third parties is governed by their policies or terms. The accuracy, appropriateness, content, completeness, timeliness, usefulness, security, safety, merchantability, fitness for a particular purpose, transmission or correct sequencing of any application, information or downloaded data is not guaranteed or warranted by AT&T or any content providers or other third party. Delays or omissions may occur. Neither AT&T nor its content providers, service providers or other third parties shall be liable to you for any loss or injury arising out of or caused, in whole or in part, by your use of any information, application or content, or any information, application, or other content acquired through the Service.
You acknowledge that every business or personal decision, to some degree or another, represents an assumption of risk, and that neither AT&T nor its content and service providers or suppliers, in providing information, applications or other content or services, or access to information, applications, or other content underwrites, can underwrite, or assumes your risk in any manner whatsoever.

1.4 How Can I Get Mobile Content?

You understand that Devices can be used to acquire or purchase goods, content, and services (including subscription plans) like ring tones, graphics, games, applications and news alerts from AT&T or other companies (“Content”). You understand that you are responsible for all authorized charges associated with such Content from any Device assigned to your account, that these charges will appear on your bill (including charges on behalf of other companies), and that such Purchases can be restricted by using parental controls or similar features available from an AT&T salesperson, or by calling AT&T. Any person using any Device assigned to your account to order Content on your account may be deemed to have corresponding authority to consent to the use or disclosure of your account information, including customer proprietary network information (CPNI), to facilitate the processing or provisioning of and/or billing for such Content. CPNI is information that relates to the quantity, technical configuration, type, destination, location and amount of use of a telecommunications service, and you have the right, and AT&T has the duty under federal law, to protect the confidentiality of CPNI. You have the right to withhold authorization of this disclosure and use of your CPNI without affecting the provision of any service(s) to which you currently subscribe from AT&T.

You are responsible for reviewing your monthly bills to ensure that all charges for Content are accurate. Additionally, you have full-time access to your Content purchase transaction history on our website. You may contest and seek refunds for unauthorized purchases and purchases with which you are not satisfied. AT&T reserves the right to restrict Content purchases or terminate the account of anyone who seeks refunds on improper grounds or otherwise abuses this service.

Actual Content may vary based on the Device capabilities. Content may be delivered in multiple messages. Content charges are incurred at the stated one-time download rate or subscription rate, plus a per kilobyte or per megabyte default pay per use charge for the Content transport when delivered, unless you have a data plan and such charges appear separately on your bill. You will be charged each time you download Content. Data Service charges apply.

1.5 Am I Responsible If Someone Makes A Purchase With My Device?

Except as otherwise provided in these terms of service, if your Device is used by others to make Content purchases, you are responsible for all such purchases. If this occurs, you are giving those other users your authority to:

1) make Content purchases from those Devices, and to incur charges for those Content purchases that will appear on your bill;

2) give consent required for that Content, including the consent to use that user’s location information to deliver customized information to that user’s Device; or

3) make any representation required for that Content, including a representation of the
user’s age, if requested.

Usage by others can be restricted by use of parental controls or similar features. Visit att.com/Smartlimits to learn more.

1.6 Does AT&T Collect Location-Based Network Performance Information From My Device? Can I Use Location-Based Services With My Device?

AT&T collects information about the approximate location of your Device in relation to our cell towers and the Global Positioning System (GPS). We use that information, as well as other usage and performance information also obtained from our network and your Device, to provide you with wireless voice and data services, and to maintain and improve our network and the quality of your wireless experience. We may also use location information to create aggregate data from which your personally identifiable information has been removed or obscured. Such aggregate data may be used for a variety of purposes such as scientific and marketing research and services such as vehicle traffic volume monitoring. It is your responsibility to notify users on your account that we may collect and use location information from Devices. Your Device is also capable of using optional Content at your request or the request of a user on your account, offered by AT&T or third parties that make use of a Device’s location information (“Location-Based Services”). Please review the terms and conditions and the associated privacy policy for each Location-Based Service to learn how the location information will be used and protected. For more information on Location-Based Services, please visit att.com/privacy. Our directory assistance service (411) may use the location of a Device to deliver relevant customized 411 information based upon the user’s request for a listing or other 411 service. By using this directory assistance service, the user is consenting to our use of that user’s location information for such purpose. This location information may be disclosed to a third party to perform the directory assistance service and for no other purpose. Such location information will be retained only as long as is necessary to provide the relevant customized 411 information and will be discarded after such use. Please see our privacy policy at att.com/privacy for additional details.

1.7 California Proposition 65 Warnings

California Proposition 65 requires that Californians be warned about products that can expose them to chemicals known to the state of California to cause cancer, birth defects or other reproductive harm. This constitutes notice that the following products provided to customer can result in exposure to one or more Proposition 65 listed chemicals: MB65

2.0 TERMS RELATING TO THE USE AND LIMITATIONS OF SERVICE

2.1 What Are The Limitations On Service And Liability?

Additional hardware, software, subscription, credit or debit card, Internet access from your compatible PC and/or special network connection may be required and you are solely responsible for arranging for or obtaining all such requirements. Some solutions may require third party products and/or services, which are subject to any applicable third party terms and conditions and may require separate purchase from and/or agreement with the third party provider. AT&T is not responsible for any consequential damages caused in any way by the preceding hardware, software or other items/requirements for which you are responsible.
Not all plans or Services are available for purchase or use in all sales channels, in all areas or with all devices. AT&T is not responsible for loss or disclosure of any sensitive information you transmit. AT&T’s wireless services are not equivalent to wireline Internet. AT&T is not responsible for nonproprietary services or their effects on devices.

We may, but do not have the obligation to, refuse to transmit any information through the Services and may screen and delete information prior to delivery of that information to you. There are gaps in service within the Services areas shown on coverage maps, which, by their nature, are only approximations of actual coverage.

WE DO NOT GUARANTEE YOU UNINTERRUPTED SERVICE OR COVERAGE. WE CANNOT ASSURE YOU THAT IF YOU PLACE A 911 CALL YOU WILL BE FOUND. AIRTIME AND OTHER SERVICE CHARGES APPLY TO ALL CALLS, INCLUDING INVOLUNTARILY TERMINATED CALLS. AT&T MAKES NO WARRANTY, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SUITABILITY, ACCURACY, SECURITY, OR PERFORMANCE REGARDING ANY SERVICES, SOFTWARE OR GOODS.

2.2 How Can I Use My AT&T Service?

All use of AT&T’s wireless network and Services is governed by AT&T’s Acceptable Use Policy, which can be found at att.com/AcceptableUsePolicy, as determined solely by AT&T. AT&T can revise its Acceptable Use Policy at any time without notice by updating this posting.

2.3 Who Is Responsible For Security?

AT&T DOES NOT GUARANTEE SECURITY. Data encryption is available with some, but not all, Services sold by AT&T. If you use your Device to access company email or information, it is your responsibility to ensure your use complies with your company’s internal IT and security procedures.

2.4 How Can I Use the Software?

The pre-installed/embedded software, interfaces, documentation, data, and content provided on any Device purchased and designed for use exclusively on AT&T’s system as may be updated, downloaded, or replaced by feature enhancements, software updates, system restore software or data generated or provided subsequently by AT&T (hereinafter “Software”) is licensed, not sold, to you by AT&T and/or its licensors/suppliers for use only on such Device. Your use of the Software shall comply with its intended purposes as determined by us, all applicable laws, and AT&T’s Acceptable Use Policy at att.com/AcceptableUsePolicy. For the avoidance of doubt, Software does not include any AT&T or third-party software sold separately to you by AT&T.

You are not permitted to use the Software in any manner not authorized by this License. You may not (and you agree not to enable others to) copy, decompile, reverse engineer, disassemble, reproduce, attempt to derive the source code of, decrypt, modify, defeat protective mechanisms, combine with other software, or create derivative works of the Software or any portion thereof. You may not rent, lease, lend, sell, redistribute, transfer or sublicense the Software or any portion thereof. You agree the Software contains proprietary content and information owned by AT&T and/or its licensors/suppliers. att.com/privacy for additional details.

AT&T and its licensors/suppliers reserve the right to change, suspend, terminate, remove, impose limits on the use or access to, or disable access to, the Software at any time without notice and will have no
liability for doing so. You acknowledge AT&T’s Software licensors/suppliers are intended third party beneficiaries of this license, including the indemnification, limitation of liability, disclaimer of warranty provisions found in your Enterprise Agreement.

2.5 How Can I Use Another Carrier’s Network (Off-Net Usage)?

2.5.1 Voice

If your use of minutes (including unlimited Services) on other carrier networks (“offnet voice usage”) during any two consecutive months exceed your off-net voice usage allowance, AT&T may, at its option, terminate your Services, deny your continued use of other carriers’ coverage or change your plan to one imposing usage charges for off-net voice usage. Your off-net voice usage allowance is equal to the lesser of 750 minutes or 40% of the Anytime Minutes included with your plan.

2.5.2 Data

If you use Data Services on other carriers’ wireless networks (“offnet data usage”) your data usage may be reduced to 2G speeds. In addition, if your off-net data usage during any month exceeds your offnet data usage allowance, AT&T may at its option terminate your access to Data Services, deny your continued use of other carriers’ coverage, further reduce your off-net data usage speed, or change your plan to one imposing usage charges for offnet data usage. Your offnet data usage allowance is equal to the lesser of 100 megabytes or 20% of the kilobytes included with your plan. You may be required to use a Device programmed with AT&T’s preferred roaming database.

2.5.3 Messaging

If you use messaging services (including unlimited Services) on other carrier networks (“offnet messaging usage”) during any two consecutive months exceed your off-net messaging usage allowance, AT&T may, at its option, terminate your messaging service, deny your continued use of other carriers’ coverage or change your plan to one imposing usage charges for off-net messaging usage. Your off-net messaging usage allowance is equal to the lesser of 3,000 messages or 50% of the messages included with your plan.

2.5.4 Notice

If you exceed your allowances stated above and AT&T determines to suspend or terminate your access, deny your usage of other carrier’s coverage, or change your plan to a different plan, AT&T will provide notice and you may terminate the CRU’s service.

2.6 How Do I Get Service Outside AT&T’s Wireless Network (Roaming)?

Services originated or received while outside your plan’s included coverage area are subject to roaming charges. Domestic roaming charges for wireless data or voice Services may be charged with some plans when outside AT&T’s wireless network. International roaming rates apply for any voice, messaging or data usage incurred outside the U.S., Puerto Rico and U.S. Virgin Islands. Use of Services when roaming is dependent upon roaming carrier’s support of applicable network technology and functionality. Display
on your Device may not indicate whether you will incur roaming charges. Check with roaming carriers individually for support and coverage details.

2.6.1 International Services

Certain eligibility restrictions apply which may be based on service tenure, payment history and/or credit. Rates are subject to change. For countries, rates and additional details, see att.com/global.

2.6.1.1 International Long Distance

International rates apply for calls made and messages sent from the U.S., Puerto Rico and U.S.V.I. to another country. Calling or messaging to some countries may not be available. Calls to wireless numbers and numbers for special services, such as Premium Rated Services, may cost more than calls to wireline numbers. If a customer calls an overseas wireline number and the call is forwarded to a wireless number, the customer will be charged for a call terminated to a wireless number.

International Long Distance calling rates are charged per minute and apply throughout the same footprint in which the customer’s airtime package minutes apply.

2.6.1.2 International Long Distance Text, Picture & Video Messaging

Additional charges apply for premium messages and content. Messages over 300 KBs are billed an additional 50¢/message. For a complete list of countries, please visit att.com/text2world.

2.6.1.3 International Roaming

Compatible Device required. Your plan may include the capability to make and receive calls and texts and use data while roaming internationally. AT&T, in its sole discretion, may block your ability to use your Device while roaming internationally until eligibility criteria are met. International roaming rates, which vary by country, apply for all calls placed or received while outside the United States, Puerto Rico and U.S.V.I. Please consult att.com/global or call 611 from your mobile device or 800-331-0500 for a list of currently available countries and carriers. All countries may not be available for roaming. All carriers within available countries may not be available on certain plans or packages. Availability, quality of coverage and services while roaming are not guaranteed. When roaming internationally, you will be charged international roaming airtime rates including when incoming calls are routed to voicemail, even if no message is left. Substantial charges may be incurred if Device is taken out of the U.S. even if no services are intentionally used. Billing for international roaming usage may be delayed up to three billing cycles due to reporting between carriers. Taxes are additional. If you want to block the ability to make and receive calls or use data functions while roaming internationally, you may request that by calling 1-314-925-6925 (at no charge from your wireless phone). For AT&T Canada and Mexico Travel Minutes, package and overage rates apply only in Canada or Mexico, and if you remove the package before your monthly bill cycle ends, the included monthly minutes allotment will be reduced proportionately.

2.6.1.4 International Data

International data rates apply to all data usage outside the U.S., Puerto Rico and U.S.V.I., including accessing cloud-based services to upload/download/stream content. International data roaming may be reduced to 2G speeds. Many Devices, including iPhone, transmit and receive data messages without user intervention and can generate unexpected charges when powered "on" outside the United States,
Puerto Rico and U.S.V.I. AT&T may send “alerts” via SMS or email, to notify you of data usage. These are courtesy alerts. There is no guarantee you will receive them. They are not a guarantee of a particular bill limit. Receipt of Visual Voicemail messages are charged at international data pay-per-use rates unless customer has an international data plan/package, in which case receipt of Visual Voicemail messages decrement Kilobytes included in such plan/package.

2.6.1.5 Data Global Add-Ons and Global Messaging Plans/Packages

Require that domestic data or messaging capability be in place. Rates apply only for usage within “roam zone” comprised of select carriers. Within the roam zone, overage rate applies if you exceed the MBs allotted for any Data Global Add-On or the messages allotted for any Global Messaging Plan/Package. International roaming pay-per-use rates apply in countries outside the roam zone. See att.com/globalcountries for current roam zone list.

2.6.1.6 Data Connect Global/North America Plans

Do not include capability to place a voice call and require a 1 year agreement. For specific terms regarding international data plans, see Section 4.10.2 below.

2.6.1.7 Cruise Ship Roaming

Cruise ship roaming rates apply for calls placed or data used while on the ship.

2.6.1.8 International Miscellaneous

Export Restrictions: You are solely responsible for complying with U.S. Export Control laws and regulations, and the import laws and regulations of foreign countries when traveling internationally with your Device.

3.0 WHAT VOICE SERVICES DOES AT&T OFFER?

3.1 What Are The General Terms That Apply To All AT&T Voice Rate Plans?

You may obtain usage information by calling customer service or using one of our automated systems. Pricing/Taxes/No Proration: Prices do not include taxes, directory assistance, roaming, Universal Service Fees, and other surcharges. Final month’s charges are not prorated. Activation Fees: Activation Fee may apply for each new line. Nights and Weekends: Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at the cell site or switch providing your Service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the Services area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands. Additional charges apply to Services used outside the land borders of the U.S., Puerto Rico and U.S. Virgin Islands.

3.2 Voicemail

Unless you subscribe to an Unlimited Voice Plan or are an upstate New York customer subscribing to Enhanced Voicemail, airtime charges apply to calls to your voicemail service, including calls where the caller does not leave a message, because the call has been completed, calls to listen to, send, reply to, or
forward messages, or to perform other activities with your voicemail service, including calls forwarded from other phones to your voicemail service. You are solely responsible for establishing and maintaining security passwords to protect against unauthorized use of your voicemail service. For information as to the number of voicemail messages you can store, when voicemail messages will be deleted, and other voicemail features, see att.com/wirelessvoicemail. We reserve the right to change the number of voicemails you can store, the length you can store voicemail messages, when we delete voicemail messages, and other voicemail features without notice. We may deactivate your voicemail service if you do not initialize it within a reasonable period after activation. We will reactivate the service upon your request. See att.com/global for information about using voicemail internationally.

3.3 Voicemail-To-Text (VMTT)

AT&T is not responsible, nor liable for: 1) errors in the conversion of or its inability to transcribe voicemail messages to text/email; 2) lost or misdirected messages; or, 3) content that is unlawful, harmful, threatening, abusive, obscene, tortious, or otherwise objectionable.

We do not filter, edit or control voice, text, or email messages, or guarantee the security of messages. We can interrupt, restrict or terminate VMTT without notice, if your use of VMTT adversely impacts AT&T’s network, for example that could occur from abnormal calling patterns or an unusually large number of repeated calls and messages; or if your use is otherwise abusive, fraudulent, or does not comply with the law.

You are solely responsible for and will comply with all applicable laws as to the content of any text messages or emails you receive from VMTT that you forward or include in a reply to any other person. You authorize AT&T or a third party working on AT&T’s behalf to listen to, and transcribe all or part of a voicemail message and to convert such voicemail message into text/email, and to use voicemail messages and transcriptions to enhance, train and improve AT&T’s speech recognition and transcription services, software and equipment.

Charges for VMTT include the conversion of the voicemail message and the text message sent to your wireless device. Additional charges, however, may apply to receiving email on your wireless device from VMTT, as well as, replying to or forwarding VMTT messages via SMS (text) or email, depending on your plan.

SMS (text messaging) blocking is incompatible with VMTT. (If you do not have a texting plan on your handset, we add a texting pay per use feature when you add VMTT with text delivery.) If you are traveling outside the U.S. coverage area, you will incur international data charges for emails received from VMTT, as well as, charges for emails you respond to or forward from VMTT, unless you have an international data plan and the usage falls within the plan’s usage limits.

Transcription times cannot be guaranteed. Customers purchasing email delivery are responsible for providing a correct email address and updating the email address when changes to the email account are made.

If you choose SMS (text) delivery, VMTT only converts the first 480 characters of a voicemail message into text and you will receive up to three text messages of a transcribed message. The transcription, therefore, may not include the entire voicemail message with SMS delivery. Adding VMTT will create a new voicemail box and all messages and greetings will be deleted from your current voicemail box.
3.4 Unlimited Voice Services

Unlimited voice Services are provided primarily for reasonably uninterrupted live dialog between two individuals. If your use of unlimited voice Services for conference calling or call forwarding exceeds 750 minutes per month, AT&T may, at its option, terminate your Service or change your plan to one with no unlimited usage components. AT&T may, in its sole discretion, terminate your Service or change your plan to one with no unlimited voice usage if it reasonably determines or has a reasonable basis to believe that you are engaged in any of the following prohibited activities: (1) maintaining an open line of communication to provide dispatch or monitoring services; (2) accessing or providing access to multi-party chat line services; (3) using the Service with a SIM box or SIM server network to generate or simulate voice calls; (4) transmitting broadcasts; (5) transmitting pre-recorded materials; (6) telemarketing; (7) initiating autodialed calls; (8) initiating any other calls or connections that are not for the purposes of reasonably uninterrupted live dialog between individuals; (9) using the Service for any fraudulent purpose; (10) reselling or rebilling the Service either alone or as part of any other good or service; or (11) any abusive use of AT&T's owned network or Services.

3.5 Caller ID

Your caller identification information (such as your name and phone number) may be displayed on the Device or bill of the person receiving your call; technical limitations may, in some circumstances, prevent you from blocking the transmission of caller identification information. Contact customer service for information on blocking the display of your name and number. Caller ID blocking is not available when using Data Services, and your wireless number is transmitted to Internet sites you visit. If applicable to your plan and Device, an in-coming call identification feature may apply that will notify of in-coming calls and that may apply generic labels such as telemarketing, suspected spam, and/or suspected fraud to some of those calls.

3.6 Rollover® Minutes

If applicable to your plan, Rollover Minutes accumulate and expire through 12 rolling bill periods. Bill Period 1 (activation) unused Anytime Minutes will not carry over. Bill Period 2 unused Anytime Minutes will begin to carry over. Rollover Minutes accumulated starting with Bill Period 2 will expire each bill period as they reach a 12-bill-period age. Rollover Minutes will also expire immediately upon default or if customer changes to a non-Rollover plan. If you change plans (including the formation of a FamilyTalk plan), or if an existing subscriber joins your existing FamilyTalk plan, any accumulated Rollover Minutes in excess of your new plan or the primary FamilyTalk line’s included Anytime Minutes will expire. Rollover Minutes are not redeemable for cash or credit and are not transferable. If you change to non-AT&T Unity plans with Rollover Minutes (including the formation of a FamilyTalk plan) any accumulated Rollover Minutes in excess of your new non-AT&T Unity plan or the primary non-AT&T Unity FamilyTalk line’s included Anytime Minutes will expire.

3.7 Mobile To Mobile Minutes

If applicable to your plan, Mobile to Mobile Minutes may be used when directly dialing or receiving calls from any other AT&T wireless phone number from within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks. Calls to AT&T voicemail and return calls from voicemail are not included.
3.8 FamilyTalk® Plan

If applicable to your plan, FamilyTalk may require up to a two-year Service Commitment for each line. FamilyTalk plans include only package minutes included with the primary number, and minutes are shared by the additional lines. The rate shown for additional minutes applies to all minutes in excess of the Anytime Minutes. FamilyTalk requires two lines. If the rate plan for the primary number is changed to an ineligible plan or the primary number is disconnected, one of the existing additional lines shall become the primary number on the rate plan previously subscribed to by the former primary number; if only one line remains, it shall be converted to the closest single line rate.

3.9 A-List® for Business

A-List for Business is an optional feature available only to CRUs with qualified plans (including, without limitation, Nation Plans $59.99 a month or higher and select business pooled plans $89.99 a month or higher, such as BusinessTalk.) Eligible CRUs can place/receive calls to/from up to 10 wireline or wireless telephone numbers without being charged for airtime minutes. All qualifying lines on a group account share the same 10 A-List numbers. Only qualified, standard domestic wireline or wireless numbers may be added to your A-List. A-List for Business is only for domestic calls. Certain wireline numbers that are included in private numbering plans for purposes of fixed-mobile convergence solutions are not eligible for A-List for Business. Directory assistance, 900 numbers, your wireless or voicemail access numbers, numbers for call routing services and call forwarding services from multiple phones, and machine-to-machine numbers are not eligible. Depending on your PBX system, AT&T may not be able to determine if your selected PBX A-List number is calling/receiving calls from your wireless account and airtime charges may apply. Forwarded calls will be billed based on the originating number, not the call forwarding number, and airtime charges may apply. Only voice calling is eligible. A-List number selections may only be managed online via Premier Online Care. Selected telephone numbers do not become active until 24 hours after being added. AT&T reserves the right to block any A-List number and to reduce the amount of telephone numbers that can be used for A-List without notice.

3.10 AT&T Viva MexicoSM (“Mexico Plan”) & AT&T Nation®/FamilyTalk® With Canada (“Canada Plan”)

Certain eligibility requirements apply. Anytime Minutes and Night and Weekend Minutes between Mexico and your U.S. wireless coverage area if you subscribe to the Mexico Plan, or Canada and your U.S. wireless coverage area if you subscribe to the Canada Plan, will be treated for billing purposes as calls to and from your U.S. wireless coverage area.

Calls made from or received in Mexico and Canada cannot exceed your monthly off-net usage allowance (the lesser of 750 min./mo. or 40% of your Anytime Minutes/mo.) in any two consecutive months. Calls made from or received in Mexico and Canada will not qualify as Mobile to Mobile Minutes. Special rates apply for data usage in Mexico and Canada. International long distance text, instant, picture and video messaging rates apply to messaging from the U.S. to Mexico and Canada and international roaming rates apply when such messages are sent from Mexico and Canada.

International Roaming charges apply when using voice and data Services outside Mexico and your U.S. wireless coverage area if you subscribe to the Mexico Plan, and Canada and your U.S. wireless coverage area, if you subscribe to the Canada Plan. International long distance charges apply when calling to areas
outside Mexico and your U.S. wireless coverage area if you subscribe to the Mexico Plan, and Canada and your U.S. wireless coverage area if you subscribe to the Canada Plan.

Anytime Minutes are primarily for live dialog between two people. You may not use your Services other than as intended by AT&T and applicable law. Plans are for individual, noncommercial use only and are not for resale.

3.11 AT&T UnitySM And AT&T UnitySM-FamilyTalk® Plans Requirements

3.11.1 Eligibility Requirements: AT&T local and wireless combined bill required. For residential customers, qualifying AT&T local plan from AT&T required. For business customers, qualifying AT&T local service plan required. Specific AT&T Services that qualify vary by location; see att.com or call 1-800-288-2020. Certain business accounts are not eligible for Unity plans. Discounts on any other combined-bill wireless plans will be lost if an AT&T Unity plan is added to your combined bill. If an existing wireless plan is upgraded to an AT&T Unity plan, all discounts and promotions will be lost when subscribing to that plan.

3.11.2 AT&T UnitySM Minutes: AT&T Unity Calling Minutes may be used when directly dialing or receiving calls from any other eligible AT&T wireline or wireless phone number from within your calling area. Calls to AT&T voicemail and return calls from voicemail not included. AT&T Unity Minutes are not included when checking usage for the current billing period.

3.12 VoiceDial Services

Regular airtime charges apply. Mobile to Mobile Minutes do not apply. Calls to 911, 411, 611, 711 and international dialing cannot be completed with VoiceDial Services. Caller ID cannot be blocked. Caller ID will be delivered on calls, even if you have permanently blocked your name and number. For complete terms and conditions, see att.com/voicedial.

3.13 AT&T Messaging Unlimited with Mobile to Any Mobile Calling Feature

Available only with select Nation, FamilyTalk, and BusinessTalk plans and can be discontinued at anytime. Messaging Unlimited Plan required. Mobile to Any Mobile minutes only apply when you directly dial another U.S. mobile number or directly receive a call from another U.S. mobile number from within your calling area in the U.S., Puerto Rico, or U.S.V.I. Mobile to Any Mobile is not available with the AT&T Viva Mexico or AT&T Nation/FamilyTalk with Canada plans. Calls made through Voice Connect, calls to directory assistance, and calls to voicemail and return calls from voicemail are not included. Only numbers included in the wireless number database that AT&T uses will be treated as a call to a mobile number or a call received from a mobile number. So for example, Type 1 numbers belonging to other carriers and not included in the industry wireless LNP database, and numbers for which ports to wireless service have not yet completed, will not be treated as a call to a mobile number or a call received from a mobile number. Also calls made to and calls received from mobile toll-free numbers, mobile chat lines, mobile directory assistance, calling applications, numbers for call routing and call forwarding services, and machine to machine numbers are not included.

4.0 WHAT DATA AND MESSAGING SERVICES DOES AT&T OFFER?

4.1 What Are the General Terms That Apply to All Data and Messaging Plans? AT&T provides wireless data and messaging Services, including but not limited to, features that may be used with Data
Services and wireless content and applications ("Data Services"). The absolute capacity of the wireless data network is limited; consequently Data Services may only be used for permitted activities. Pricing and data allowances for Data Services are device dependent and based on the capabilities and capacity of each Device.

For Data Services with a monthly megabyte (MB) or gigabyte (GB) data allowance, once you exceed your monthly data allowance you will be automatically charged for overage as specified in the applicable rate plan. All data allowances, including overages, must be used in the billing period in which the allowance is provided. Unused data allowances will not roll over to subsequent billing periods.

AT&T data plans are designed for use with only one of the following distinct Device types: (1) Smartphones, (2) basic and Quick Messaging phones, (3) tablets, (4) LaptopConnect cards, (5) stand-alone Mobile Hotspot devices, and (6) AT&T Home Bases. A data plan designated for one type of device may not be used with another type of device. For example, a data plan designated for use with a basic phone or a Smartphone may not be used with a LaptopConnect card, tablet, or stand-alone Mobile Hotspot device, by tethering devices together, by SIM card transfer, or any other means. A data tethering plan, however, may be purchased for an additional fee to enable tethering on a compatible device. An Activation Fee may apply for each data line. Consumer data plans do not allow access to corporate email, company intranet sites, and other business applications. Access to corporate email, company intranet sites, and/or other business applications requires an applicable Enterprise Data plan. Enterprise Email requires an eligible data plan and Device. Terms may vary depending on selected Enterprise Email solution.

AT&T RESERVES THE RIGHT TO TERMINATE YOUR DATA SERVICES WITH OR WITHOUT CAUSE, INCLUDING WITHOUT LIMITATION, UPON EXPIRATION OR TERMINATION OF YOUR ENTERPRISE AGREEMENT.

4.2 What Are The Intended Uses Of AT&T’s Wireless Data Service? AT&T’s wireless data network is a shared resource, which AT&T manages for the benefit of all of its customers so that they can enjoy a consistent, high-quality mobile broadband experience and a broad range of mobile Internet services, applications and content. However, certain activities and uses of the network by an individual customer or small group of customers can negatively impact the use and enjoyment of the network by others. Therefore, certain activities and uses of AT&T’s wireless data service are permitted and others are prohibited. The terms and conditions of your use of AT&T’s wireless data service are set forth below.

Permitted Activities. AT&T’s wireless data services are intended to be used for the following permitted activities: (i) web browsing; (ii) email; and (iii) intranet access if permitted by your rate plan (for example, access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation); (d) uploading and downloading applications and content to and from the Internet or third-party application stores, and (e) using applications and content without excessively contributing to network congestion.

You agree to use AT&T’s wireless data services only for these permitted activities.

Prohibited Activities: AT&T’s wireless data services are not intended to be used in any manner which has any of the following effects and such use is prohibited if it: (a) conflicts with applicable law, (b) hinders other customers’ access to the wireless network, (c) compromises network security or capacity,
(d) excessively and disproportionately contributes to network congestion, (e) adversely impacts network service levels or legitimate data flows, (f) degrades network performance, (g) causes harm to the network or other customers, (h) is resold either alone or as part of any other good or service, (i) tethers a wireless device to a computing device (such as a computer, Smartphone, eBook or eReader, media player, laptop, or other devices with similar functions) through use of connection kits, applications, devices or accessories (using wired or wireless technology) and you have not subscribed to a specific data plan designed for this purpose, or (j) there is a specific data plan required for a particular use and you have not subscribed to that plan.

The following specific uses of AT&T’s wireless data service are prohibited:

- AT&T’s wireless data services may not be used in any manner that defeats, obstructs or penetrates, or attempts to defeat, obstruct or penetrate the security measures of AT&T’s wireless network or systems, or another entity’s network or systems; that accesses, or attempts to access without authority, the accounts of others; or that adversely affects the ability of other people or systems to use either AT&T’s wireless services or other parties’ Internet-based resources. For example, this includes, but is not limited to, malicious software or “malware” that is designed, intentionally or unintentionally, to infiltrate a network or computer system such as spyware, worms, Trojan horses, rootkits, and/or crimeware; “denial of service” attacks against a network host or individual user; and “spam” or unsolicited commercial or bulk email (or activities that have the effect of facilitating unsolicited commercial email or unsolicited bulk email).

- AT&T’s wireless data services may not be used in any manner that has the effect of excessively contributing to network congestion, hindering other customers’ access to the network, or degrading network performance by maintaining a sustained and continuous wireless data service connection or active wireless Internet connection. For example, this includes, but is not limited to, server devices or host computer applications such as continuous Web camera posts or broadcasts, automatic data feeds, or automated machine-to-machine connections; “auto-responders,” “cancel-bots,” or similar automated or manual routines that generate excessive amounts of traffic or that disrupt user groups or email use by others; use of the service as a substitute or backup for private lines or full-time or dedicated data connections; peer-to-peer (P2P) file sharing services; and software or other devices that maintain continuous active Internet connections when a connection would otherwise be idle or any “keep alive” functions, unless they adhere to AT&T data retry requirements (as may be modified from time to time).

- AT&T’s wireless data services also may not be used with high bandwidth applications, services and content that is not optimized to work with AT&T’s wireless data services and, therefore disproportionately and excessively contribute to network congestion. This includes, but is not limited to, redirecting television signals for viewing on computing devices, web broadcasting, and/or the operation of servers, telemetry devices, or supervisory control and data acquisition devices, unless they meet AT&T’s wireless data services optimization requirements.

You agree not to use AT&T’s wireless data services for any of these prohibited activities.
**AT&T’s Rights to Ensure Compliance.** You agree that AT&T has the right to take any and all actions necessary to enforce this Section 4.2 if you use AT&T’s wireless data services in any manner that is prohibited, including, but not limited to, the following actions:

- AT&T may modify, without advance notice, the permitted and prohibited activities, and the optimization requirements for your wireless data services;
- AT&T may engage in any reasonable network management practice to enhance customer service, to reduce network congestion, to adapt to advances and changes in technology, and/or to respond to the availability of wireless bandwidth and spectrum;
- AT&T may reduce your data throughput speeds at any time or place if your data usage exceeds an applicable, identified usage threshold during any billing cycle. AT&T will provide you with advance notice of the usage threshold applicable to your data plan, or any changes to the applicable usage threshold either by a bill insert, email, text message or other appropriate means;
- AT&T may use reasonable methods to monitor and collect customer usage information to better optimize the operation of the network. Details concerning the information that AT&T collects about its customers, and how it uses and protects that information are addressed in the AT&T Privacy Policy (see att.com/privacy);
- If you are an AT&T unlimited data plan customer, AT&T may migrate you from the unlimited data plan to a tiered data plan and bill you the appropriate monthly fees. We will provide you with notice of this change at least one billing cycle in advance either by a bill insert, email, text message, or other appropriate means;
- AT&T may interrupt, suspend, cancel or terminate your wireless data services without advance notice.

**Unlimited Data Customers.** If you are an AT&T unlimited data plan customer, you agree that “unlimited” means you pay a fixed monthly charge for wireless data service regardless of how much data you use. You further agree that “unlimited” does not mean that you can use AT&T’s wireless data service in any way that you choose or for any prohibited activities, and that if you use your unlimited data plan in any manner that is prohibited, AT&T can limit, restrict, suspend or terminate your data service or switch you to a tiered data plan.

**4.3 What Are The Voice And Data Plan Requirements?**

A voice plan is required on all voice-capable Devices, unless specifically noted otherwise in the terms governing your plan.

An eligible tiered pricing data plan is required for certain Devices, including iPhones and other designated Smartphones. Eligible voice and tiered pricing data plans cover voice and data usage in the U.S. and do not cover International voice and data usage and charges. If it is determined that you are using a voice-capable Device without a voice plan, or that you are using an iPhone or designated Smartphone without an eligible voice and tiered data plan, AT&T reserves the right to switch you to the required plan or plans and bill you the appropriate monthly fees. In the case of the tiered data plan, you will be placed on the data plan which provides you with the greatest monthly data usage allowance. If
you determine that you do not require that much data usage in a month, you may request a lower data tier at a lower monthly recurring fee.

4.4 How Does AT&T Calculate My Data Usage/Billing?

DATA TRANSPORT/USAGE OCCURS WHENEVER YOUR DEVICE IS CONNECTED TO OUR NETWORK AND IS ENGAGED IN ANY DATA TRANSMISSION, INCLUDING BUT NOT LIMITED TO: (i) SENDING OR RECEIVING EMAIL, DOCUMENTS, OR OTHER CONTENT, (ii) ACCESSING WEBSITES, OR (iii) DOWNLOADING AND USING APPLICATIONS. SOME APPLICATIONS, CONTENT, PROGRAMS, AND SOFTWARE THAT YOU DOWNLOAD OR THAT COMES PRE-LOADED ON YOUR DEVICE AUTOMATICALLY AND REGULARLY SEND AND RECEIVE DATA TRANSMISSIONS IN ORDER TO FUNCTION PROPERLY, WITHOUT YOU AFFIRMATIVELY INITIATING THE REQUEST AND WITHOUT YOUR KNOWLEDGE. FOR EXAMPLE, APPLICATIONS THAT PROVIDE REAL-TIME INFORMATION AND LOCATION-BASED APPLICATIONS CONNECT TO OUR NETWORK, AND SEND AND RECEIVE UPDATED INFORMATION SO THAT IT IS AVAILABLE TO YOU WHEN YOU WANT TO ACCESS IT. IN ADDITION, ANY ADVERTISEMENTS OR ADVERTISER-RELATED MESSAGES OR DATA DELIVERED TO YOUR DEVICE, EVEN IF DELIVERED TO AN APPLICATION, AS WELL AS ANY MESSAGES OR CONTENT THAT INITIATE IN RESPONSE TO AN ADVERTISEMENT, WILL COUNT TOWARD YOUR DATA USAGE. YOU WILL BE BILLED FOR ALL DATA TRANSPORT AND USAGE WHEN YOUR DEVICE IS CONNECTED TO OUR NETWORK, INCLUDING THAT WHICH YOU AFFIRMATIVELY INITIATE OR THAT WHICH RUNS AUTOMATICALLY IN THE BACKGROUND WITHOUT YOUR KNOWLEDGE, AND WHETHER SUCCESSFUL OR NOT. A DATA SESSION INITIATED ON THE AT&T NETWORK WILL CONTINUE ITS CONNECTION OVER THE AT&T NETWORK UNTIL THE DATA TRANSMISSION IS CONCLUDED, EVEN WHEN YOU CONNECT TO A WI-FI NETWORK DURING THE TRANSMISSION.

Unless designated for International or Canada use, prices and included use apply to access and use on AT&T’s wireless network and the wireless networks of other companies with which AT&T has a contractual relationship within the United States and its territories (Puerto Rico and the U.S. Virgin Islands), excluding areas within the Gulf of Mexico.

Usage on networks not owned by AT&T is limited as provided in your data plan. Charges will be based on the location of the site receiving and transmitting service and not the location of the subscriber. Mobile Broadband and 4G access requires a compatible device.

Data Service charges paid in advance for monthly or annual Data Services are nonrefundable. Some Data Services may require an additional monthly subscription fee and/or be subject to additional charges and restrictions. Prices do not include taxes, directory assistance, roaming, universal services fees or other surcharges.

In order to assess your usage during an applicable billing period, you may obtain approximate usage information by calling customer service or using one of our automated systems.

4.5 Text, Messaging And Picture/Video Messaging

If you do not enroll in a monthly recurring plan for messaging, data, or Video Share, you may have access to messaging, data, and video share services and be charged on a pay-per-use basis if you use those services.
Messages are limited to 160 characters per message. Premium text and picture/video messages are charged at their stated rates. Standard rates apply to all incoming messages when in the U.S. Different, non-standard per message charges apply to international messages sent from the U.S.

Text, Picture, and Video messages are charged when sent or received, whether read or unread, solicited or unsolicited. AT&T does not guarantee delivery of messages. Text, Picture, and Video messages, including downloaded content, not delivered within 3 days will be deleted. AT&T reserves the right to change this delivery period as needed without notification.

You are charged for each part of messages that are delivered to you in multiple parts. Picture/Video Messaging, data plan, and Text Messaging may need to be provisioned on an account in order to use Picture/Video Messaging. Some elements of Picture/Video messages may not be accessible, viewable, or heard due to limitations on certain wireless phones, PCs, or e-mail.

AT&T reserves the right to change the Picture/Video message size limit at any time without notification. Picture/Video Messaging pricing is for domestic messages only. When a single message is sent to multiple recipients, the sender is charged for one message for each recipient and each recipient is charged for the message received.

Text message notifications may be sent to non-Picture/Video Messaging subscribers if they subscribe to Text Messaging. You may receive unsolicited messages from third parties as a result of visiting Internet sites, and a per-message charge may apply whether the message is read or unread, solicited or unsolicited.

You agree you will not use our messaging services to send messages that contain advertising or a commercial solicitation to any person or entity without their consent. You will have the burden of proving consent with clear and convincing evidence if a person or entity complains you did not obtain their consent. Consent cannot be evidenced by third party lists you purchased or obtained. You further agree you will not use our messaging service to send messages that: (a) are bulk messages (b) are automatically generated; (c) can disrupt AT&T’s network; (d) harass or threaten another person (e) interfere with another customer’s use or enjoyment of AT&T’s Services; (f) generate significant or serious customer complaints, (g) that falsify or mask the sender/originator of the message; or (h) violate any law or regulation. AT&T reserves the right, but is not obligated, to deny, disconnect, suspend, modify and/or terminate your messaging service or messaging services with any associated account(s), or to deny, disconnect, suspend, modify and/or terminate the account(s), without notice, as to anyone using messaging services in any manner that is prohibited. Our failure to take any action in the event of a violation shall not be construed as a waiver of the right to enforce such terms, conditions, or policies. Advertising and commercial solicitations do not include messaging that: (a) facilitates, completes, or confirms a commercial transaction where the recipient of such message has previously agreed to enter into with the sender of such message; or (b) provides account information, service or product information, warranty information, product recall information, or safety or security information with respect to a commercial product or service used or purchased by the recipient of such message.

4.6 Unlimited Messaging

Unlimited Messaging Plans or plans with unlimited messaging include only AT&T’s Short Messaging Service (SMS) and Multimedia Messaging Service (MMS) and not any other messaging services or
applications. Messages are intended for direct communication between phones and must originate from your phone. Messages sent to tablets, laptops, or other connected devices are excluded from Unlimited Messaging Plans or plans including unlimited messaging. Messages sent through applications may incur data charges. We may terminate or restrict your messaging Service for tethered messaging, excessive use or misuse.

4.7 Mobile Email

Requires e-mail account with compatible internet service provider and a downloaded or preloaded e-mail application for the wireless device. Access and use of Mobile Email is billed by total volume of data sent and received (in kilobytes) in accordance with your data plan. E-mail attachments can not be sent, downloaded, read, or forwarded on the mobile device. Only a paper clip icon appears indicating an attachment. You must view attachments from your PC. Upgrades to the application may be required in order to continue to use the Service. Wireless data usage charges will apply for downloading the application and any upgrades.

4.8 Mobile Video

Compatible Phone and eligible data plan required. Service is not available outside AT&T’s Mobile Broadband and 4G coverage area. Premium content is charged at stated monthly subscription rates or at stated pay per view rates. Content rotates and is subject to withdrawal. Mobile Video is for individual use, not for resale, commercial purposes or public broadcast. Content can only be displayed on the device screen. No content may be captured, downloaded, forwarded, duplicated, stored, or transmitted. The content owner reserves and owns all content rights. All trademarks, service marks, logos, and copyrights not owned by AT&T are the property of their owners. Some Mobile Video content is intended for mature audiences and may be inappropriate for younger viewers. Parental guidance suggested. Use Parental Controls to restrict access to mature content. Content may be provided by independent providers, and AT&T is not responsible for their content. Providers may collect certain information from your use for tracking and managing content usage.

4.9 AT&T Wi-Fi Services

AT&T Wi-Fi service use with a Wi-Fi capable wireless device is subject to the Terms of Services & Acceptable Use Policy (“Terms”) found at att.com/attwifitosaup. Your use represents your agreement to those Terms, incorporated herein by reference.

AT&T Wi-Fi Basic service is available at no additional charge to wireless customers with select Wi-Fi capable devices and a qualified data rate plan. Other restrictions may apply.

4.10 DataConnect Plans

4.10.1 What Are the General Terms that Apply to All DataConnect Plans?

A voice plan is not required with DataConnect plans.

We may, at our discretion, suspend your account if we believe your data usage is excessive, unusual or is better suited to another rate plan. If you are on a data plan that does not include a monthly MB/GB allowance and additional data usage rates, you agree that AT&T has the right to impose additional
charges if you use more than 5 GB in a month; provided that, prior to the imposition of any additional charges, AT&T shall provide you with notice and you shall have the right to terminate your Data Service.

4.10.2 Data Global Add-On/DataConnect Global Plans/DataConnect North America Plans

Available countries, coverage and participating international carriers included in the “Select International Roam Zone” and “Select Canada/Mexico Roam Zone” vary from our generally available Canada/international wireless data roam zones and may not be as extensive. The Select International Roam Zone is restricted to select international wireless carrier(s). Select Canada/Mexico Roam Zone is restricted to select wireless carrier(s) and coverage areas within Canada and Mexico. See att.com/dataconnectglobal for a current list of participating carriers and eligible roam zones. With respect to the countries included in the Select International Roam Zone, you will be restricted from accessing Data Service through any non-participating Canada/international wireless carriers that may otherwise be included in our generally available Canada and international wireless data roam zones. With the DataConnect North America Plan, you will be restricted from accessing Data Service through any non-participating Canada/Mexico wireless carriers that may otherwise be included in our generally available

Canada and international wireless data roam zones.

DATA GLOBAL ADD-ON - May only be used with eligible Devices. Domestic data usage not included. Qualified domestic wireless data plan required. If combined with a wireless voice plan that includes international voice roaming, your international wireless voice roaming in countries included in the Global Data Add-On’s Select International Roam Zone will be limited to the participating Canada/international wireless carriers and you will be restricted from voice roaming through any non-participating Canada/international wireless carriers that may otherwise be included in our generally available Canada and international voice roam zones.

DATACONNECT GLOBAL/NORTH AMERICA PLANS - Requires minimum one-year Service Commitment and you must remain on the plan, for a minimum one-year term. Voice access is restricted and prohibited.

4.11 AT&T DataPlusSM/AT&T DataProSM Plans

4.11.1 AT&T Data Plans With Tethering

Tethering is a wireless or wired method in which your AT&T mobile device is used as a modem or router to provide a Internet Access connection to other devices, such as laptops, netbooks, tablets, Smartphones, other phones, USB modems, network routers, mobile hotspots, media players, gaming consoles, and other data-capable devices. AT&T data plans with tethering enabled may be used for tethering your AT&T Mobile device to other devices. If you are on a data plan that does not include a monthly megabyte allowance and additional data usage rates, you agree that AT&T has the right to impose additional charges if you use more than 5 GB in a month; prior to the imposition of any additional charges, AT&T shall provide you with notice and you shall have the right to terminate your Service (early termination charges may apply).

4.11.2 BlackBerry® Personal
Supports personal email access to up to 10 Internet email accounts. Users storing more than 1,000 emails or email older than 30 days, may have some emails automatically deleted. May not be used to access corporate email such as BlackBerry Enterprise Server.

**4.11.3 BlackBerry® Connect; BlackBerry® Enterprise; BlackBerry® International**

Supports BlackBerry Enterprise Server for corporate access (valid Client Access License required), and personal email access to up to 10 Internet email accounts as per BlackBerry Personal. BlackBerry International requires a minimum one-year agreement.

---

**4.12 GOOD Plan**

Requires compatible Good Server and, as to each end user, a compatible Good Client Access License (CAL) for use with a qualifying AT&T data plan. Solution includes software, products and related services provided by Good Technology, Inc. (“Good”), which are subject to applicable Good terms and conditions. Good is solely responsible for all statements regarding, and technical support for, its software, products and services.

**4.13 Microsoft® Direct Push**

Requires compatible Microsoft® Exchange Server and, as to each end user, a compatible device, a Direct Push enabled email account, and a qualifying AT&T Data Plan. Plans include end user customer support from AT&T for compatible devices. AT&T does not sell, supply, install or otherwise support Microsoft® software, products or services (including without limitation, Exchange and Direct Push).

**4.14 AT&T Mobile Share Plans (with Unlimited Talk and Text)**

AT&T Mobile Share plans, including Mobile Share Value plans, allow you to share a monthly allotment of domestic wireless data usage, along with unlimited domestic talk and texting services, among a specified number of Devices, which varies from ten (10) to one hundred (100) Devices depending upon the plan you select. You choose a specific allotment of monthly shared data usage for a monthly recurring charge and then pay an additional charge for each Device added to the Mobile Share plan you select. You must specifically identify the devices (the “Designated Devices”) that will share your monthly allotment of data usage under the Mobile Share plan you select. If you add a WHP Device for unlimited talk only, it will be counted as one of the eligible Designated Devices under the Mobile Share plan. Devices can include: Smartphone(s), tablet(s), gaming device(s), modem(s), netbook(s), laptop(s), mobile hotspot(s), basic or quick messaging phone(s), WHP Device(s) or Home Base(s). If, during a billing period, your data usage exceeds the monthly allotment of data in the Mobile Share plan you select, plus any other data (such as available Rollover Data) that you may have for use during the billing period, you will automatically be charged for overage as specified in your rate plan. Unless specified otherwise, data allowances, including overages and Rollover Data, must be used in the billing period provided or you will forfeit that usage. Authorized users on the account may temporarily suspend data access for particular Device(s) during a specific billing cycle, but monthly charges for the suspended Device(s) will continue to apply. Tethering and/or mobile hotspot use is permitted with Mobile Share plans with capable Designated Devices; provided, however, that such use is limited to a maximum of five (5) simultaneous users per Device. An
activation fee will be charged when converting from a prepaid or Session-Based plan to a Mobile Share plan or when you activate an additional Device on an existing Mobile Share plan. Access to corporate email, intranet sites and/or other business applications may be available for an additional monthly charge per Device (no additional charge for Mobile Share Value plans). Discounts otherwise applicable to your Mobile Share rate plan do not apply to the additional monthly Device charge. Additional deposits and other restrictions may apply.

**Rollover DataSM:** Only Mobile Share Value® plans include the Rollover Data feature. With Rollover Data, unused data from the monthly plan allotment rounds up to the nearest MB and carries over for one billing period. **Unused Rollover Data automatically expires after one billing period or with any plan change (such as changing data amounts or termination).** Unused overage data does not roll over. Rollover Data is always consumed last, after your other data allowances. Unused Rollover Data is not redeemable for cash or credit and is not transferable including to other Mobile Share Value groups on your account. Mobile Share and Mobile Share Data-only plans do not include Rollover Data.

If you use a Mobile Share plan with any device that is not a Designated Data Device, for tethering or as a mobile hotspot with more than five (5) simultaneous users, or otherwise use the plan in any way that is inconsistent with its terms, you agree that AT&T may: (a) suspend or terminate service to the account; (b) place any non-complying Device on an appropriate Mobile Share plan and/or (c) add any other required element of the plan.

**Device upgrades:** If you upgrade to a new smartphone, a discounted access charge is only available for that CRU line when purchasing a new smartphone via AT&T NextSM (where available for small business customers with a qualified service agreement) or at full retail price. If you upgrade your Device to a new smartphone on a 2-year service commitment (a.k.a. CRU Term), that CRU line is ineligible for the discount and the discount is lost.

4.15 AT&T Mobile Share – Data Plans (for Data-Only Devices) AT&T Mobile Share – Data plans allow you to share a monthly allotment of domestic wireless data usage among up to ten (10), fifteen (15), twenty (20) or twenty-five (25) 3G, HSPA+ or LTE Devices (excluding smartphones and basic or quick messaging phones), depending on the plan. You choose a specific allotment of monthly shared data usage for a monthly recurring charge and then pay an additional charge for each Device added to the Mobile Share – Data plan you select. You must specifically identify one or more eligible devices (the “Designated Data Devices”) that will share your monthly allotment of data usage under the Mobile Share – Data plan you select. Designated Data Devices can include: tablet(s), gaming device(s), modem(s), netbook(s), laptop(s), or mobile hotspot(s). If, during a billing period, your data usage exceeds the monthly allotment of data in the Mobile Share – Data plan you select, you will automatically be charged for overage as specified in your rate plan. If, during a billing period, you do not use all of the data allotment in the Mobile Share – Data plan you select, you will forfeit that usage. Authorized users on the account may temporarily suspend data access for particular Designated Data Device(s) during a specific billing cycle, but monthly charges for the suspended Designated Data Device(s) will continue to apply. Tethering and/or mobile hotspot use is permitted with Mobile Share – Data plans with capable Designated Data Devices; provided, however, that such use is limited to a maximum of five (5) simultaneous users per Designated Data Device. An activation fee will be charged when converting from a prepaid or Session-Based plan to a Mobile Share – Data plan or when you activate an additional Designated Data Device on an existing Mobile Share – Data plan. Designated Data...
Devices that are capable of accessing corporate email, intranet sites and/or other business applications may do so for no additional monthly access charge. Discounts otherwise applicable to your Mobile Share – Data rate plan do not apply to the additional monthly Device charge. Additional deposits and other restrictions may apply.

If you use a Mobile Share – Data plan with a smartphone, with any device that is not a Designated Data Device, for tethering or as a mobile hotspot with more than five (5) simultaneous users, or otherwise use the plan in any way that is inconsistent with its terms, you agree that AT&T may: (a) suspend or terminate service to the account; (b) place any non-complying Device on an appropriate Mobile Share plan and/or (c) add any other required element of the plan.

5.0 AT&T WIRELESS HOME SERVICES

5.1 AT&T Wireless Home Phone Service

AT&T Wireless Home Phone (“WI”) service utilizes mobile wireless gateway Equipment now called an AT&T Wireless Internet device (“WHP Device”), formerly called a Wireless Home Phone device or WHP Device). With WHP service, the WI Device allows you to connect a landline phone to place and receive calls over the AT&T wireless network. See Section 1.2 for more information about how AT&T wireless service works.

WHP service provides voice service only and requires that you subscribe to an eligible wireless voice plan option, such as: (1) Wireless Home Phone unlimited plan or, (2) AT&T Mobile Share plan. If your WI Device is used to roam on other carrier networks, AT&T’s off-net usage restrictions apply. Text messaging, data services, features and international roaming are not supported by WHP service. If you use a wireless voice plan not designed for WI service with your WI Device, AT&T reserves the right to switch you to an appropriate plan and bill you the associated fees for such plan.

911 calls are routed based on the wireless network's automatic location technology. You should expect to provide your location address to the emergency response center responsible for sending first responders (e.g. police, medical assistance, or fire) to your location. The WHP Device has battery backup power and will work in the event of a power outage. However, if you connect a landline phone to the WHP Device that itself requires external electric power to operate (e.g., a cordless phone), you will not be able to place and receive calls over that phone during a power outage.

5.2 AT&T Wireless Internet Service

AT&T Wireless Internet service (formerly Wireless Home Phone and Internet service or WHPI) also utilizes the WI Device (the WHPI service used the Home Base device). With AT&T Wireless Internet service, the WI Device allows you to connect a landline phone to place and receive calls, and to connect up to twelve (12) Internet-capable devices (one (1) via Ethernet and ten (10) via Wi-Fi) to have mobile broadband Internet access over the AT&T wireless network. See Section 1.2 for more information about how AT&T wireless service works.

AT&T Wireless Internet service requires that you subscribe to an eligible wireless voice and/or data plan to take advantage of one or both capabilities. Tiered shared data plan options allow you to share a monthly allotment of domestic wireless data usage among your connected internet-capable devices. If
your data usage exceeds the monthly data allotment of the plan you select during a billing period, you automatically will be charged for overages as specified in your plan. If you do not use all of the monthly data allotment of the plan you select during a billing period, you forfeit that usage. You may also add your WI Device to your AT&T Mobile Share plan if the monthly allotment of domestic wireless data usage under your AT&T Mobile Share plan is 10 GB or more.

If your WI Device is used to roam on other carrier networks, AT&T’s off-net usage restrictions apply. Messaging services and international roaming are not supported by AT&T Wireless Internet service. If you use a wireless voice and/or data plan not designed for WHPI service with your WI Device, AT&T reserves the right to switch you to an appropriate plan and bill you the associated fees for such plan.

911 calls are routed based on the wireless network’s automatic location technology. You should expect to provide your location address to the emergency response center responsible for sending first responders (e.g. police, medical assistance, or fire) to your location. The WI Device has battery backup power and will work in the event of a power outage. However, if you connect a landline phone to the WI Device that itself requires external electric power to operate (e.g., a cordless phone), you will not be able to place and receive calls over that phone during a power outage.

6.0 ARE THERE ADDITIONAL TERMS AND CONDITIONS THAT APPLY TO OTHER PLANS, FEATURES, PROMOTIONS, APPLICATIONS AND OFFERS AVAILABLE TO ENTERPRISE CUSTOMERS?

Terms and conditions for certain features and applications are provided on the Device at the time of feature/application activation or first use. Certain features/applications will not be available in all areas at all times. In addition, terms and conditions for certain other enterprise-only Plans, features, promotions, Supplemental Services and offers are contained in the Sales Information for such Plans, features, promotions, Supplemental Services and offers and are available to you at the time of purchase.

7.0 WHAT IS AT&T ROADSIDE ASSISTANCE, OPTIONAL AT&T MOBILE INSURANCE, AT&T MOBILE PROTECTION PACK & AT&T MULTI-DEVICE PROTECTION PACK?

7.1 AT&T Roadside Assistance

AT&T Roadside Assistance (“RA”) is an optional feature that may be purchased separately and automatically billed to the wireless account. RA service is provided by American Traveler Motor Club, Inc., a licensed motor club. For complete RA Terms and Conditions, refer to the RA Welcome Kit or go to www.att.com/roadside.

7.2 Optional AT&T Mobile Insurance, AT&T Mobile Protection Pack & AT&T Multi-Device Protection Pack

If eligible, you have 30 days from activation or upgrade to enroll in optional AT&T Mobile Insurance, AT&T Mobile Protection Pack or AT&T Multi-Device Protection Pack. For details, visit www.att.com/deviceprotection. AT&T Mobile Insurance and AT&T Multi-Device Insurance are underwritten by Continental Casualty Company, a CNA company (CNA) and administered by Asurion Protection Services, LLC (in California, Asurion Protection Services Insurance Agency, LLC, CA Lic. #OD63161,. in Puerto Rico, Asurion Protection Services of Puerto Rico, Inc.), CNA’s licensed agent for the customers of AT&T.

8.0 WHAT OTHER TERMS AND CONDITIONS APPLY TO MY WIRELESS SERVICE?
8.1 Intellectual Property

You must respect the intellectual property rights of AT&T, our third-party content providers, and any other owner of intellectual property whose protected property may appear on any website and/or dialogue box controlled by AT&T or accessed through the AT&T’s websites. Except for material in the public domain, all material displayed in association with the Service is copyrighted or trademarked. Except for personal, non-commercial use, trademarked and copyrighted material may not be copied, downloaded, redistributed, modified or otherwise exploited, in whole or in part, without the permission of the owner. 8.2 Trial Services

Trial Services are subject to the terms and conditions of the Enterprise Agreement and the corresponding trial agreement between you and AT&T, if any; may have limited availability; and may be withdrawn at any time.

8.3 NOTICE REGARDING TRANSMISSION OF WIRELESS EMERGENCY ALERTS (Commercial Mobile Alert Service)

AT&T has chosen to offer wireless emergency alerts within portions of its service area, as defined by the terms and conditions of its Agreement, on wireless emergency alert capable devices.

There is no additional charge for these wireless emergency alerts. Wireless emergency alerts may not be available on all devices or in the entire service area, or if a subscriber is outside of the AT&T service area. In areas in which the emergency alerts are transmitted, such alerts may not be received by a subscriber or user of AT&T’s wireless service even though the subscriber has a device capable of receiving them.

For details on the availability of this service and wireless emergency alert capable devices, please ask a sales representative, or go to att.com and click the Wireless Emergency Alerts link. This notice is required by FCC Rule 47 C.F.R. § 10.250 (Commercial Mobile Alert Service).

In transmitting emergency alerts pursuant to federal law, AT&T, including its officers, directors, employees, vendors, and agents, shall not be liable to any subscriber to, or user of, AT&T’s wireless service or equipment for any act or omission related to or any harm resulting from the transmission of, or the failure to transmit, an emergency alert; or the release to a government entity or agency, public safety, fire service, law enforcement official, emergency medical service, or emergency facility of subscriber information used in connection with delivering an emergency alert.
