AT&T Fleet Manager

AT&T Fleet Manager is a powerful web-based location and telematics solution that provides fleet managers with real-time and historical GPS-based information for efficient fleet management, including vehicle and driver performance, comprehensive mapping capabilities and an in-depth suite of configurable reports.

Powering Fleet Manager is a series of feature-rich GPS devices that deliver all the vehicle location and telematics field data fleet managers need to help improve operations. With AT&T’s wireless service, the devices enable:

• Real-time high frequency 10 second data reporting and tracking
• Comprehensive on-board engine and vehicle diagnostics
• Advanced dynamic reporting suite
• Dashboards
• Mobile Voice Dispatch: EPTT Integration
• Rules and Exception Alerts
• GIS Maps
• Hours of Service - ELD Solution

Customized Solutions: Helping Customers Face the Future with Confidence
With Fleet Manager’s highly flexible and scalable platform, you are able to respond to the specific needs of a wide variety of organizations and fleet types.

• Services
• Trucking
• Heavy Duty Construction
• State and Local Government Fleets
• Federal Government Fleets
• Public Works
• Winter Operations
• General Government Fleets

Commercial Fleets
As operating costs continue to escalate, transportation and service companies demand a revolutionary fleet management solution to address their challenges and keep their organizations one step ahead of competition. Fleet Manager helps by ensuring drivers have all the tools they need to be safe and perform their best – on time and on budget.

Government Fleets
The Fleet Manager solution can provide federal, state, and local governments with tools to decrease operating costs, improved transparency and mitigate risk for overall operational effectiveness.

Advantages
• Driver Retention
• Safety
• Compliance
• Transparency
• Liability
• Operational Efficiency
• Fuel Optimization
• Theft Prevention
• Accountability
• Reduce Emissions

What’s #1 for you?
• Accountability
• Compliant third-party contractors
• Driver fatigue
• Flexible fleet customizations
• Fuel Economy
• HOS and IFTA fuel-tax compliance
• Lowered operating costs
• Mobile Asset Management
• Reduced liability
• Third-party integration

On-The-Go Communication
As part of its GPS fleet tracking solutions, Fleet Manager Mobile can run on Apple iPhones and iPads running iOS and Google Android running Google OS. Fleet Manager Mobile enables you to see any configuration of trucks and assets, their status, and specifics about their condition.

View Vehicle List – Organize exactly what you want to look at. View, search, and select multiple vehicles or mobile assets.

Vehicle Status – Ensure your fleet drivers are safe and driving within legal limits. With the ability to see stopped, moving, or even speeding trucks, you benefit from real-time exception report. In addition, you can see which direction moving vehicles are headed. Vehicle status also shows the last reported GPS transmission time and the last time your screen was updated.

Telematic – Monitoring your trucks, trailers, and cargo helps prevent trespassing, theft, and content spoilage. Temperature monitoring ensures trailer contents are shipped within the correct temperature parameters. No more spoilage in transport. When you get an email alerting you to an issue with a vehicle or asset on your mobile device, you can log in on the same device and get a detailed real-time update on its condition or whereabouts.

Mobile Voice Dispatch: EPTT Integration
Now integrated with Enhanced Push To Talk, AT&T Fleet Manager Mobile Voice Dispatch can now deliver a powerful, fully integrated solution to help ensure that your field workers are reachable from within the Fleet Manager web portal.

• Instantly Communicate
• Enhance Levels of Service
• Improve Safety
• Smart, Strategic Decisions

Fleet Intelligence Anywhere
Fleet Manager can have a positive impact on both government and commercial budgets, because it uses business intelligence to monitor fleet operations more closely, analyze trends, and respond in a timely fashion. You’re building a way to process data, analyze it, and leverage it to serve a wide range of business needs.

• Fleet Manager provides critical information in numerous ways:
  • View vehicles in real time to assess vehicle speed, direction, optimize routing, and respond to customer order changes as they occur
  • Quantify and verify compliance with federal and DOT requirements

Vehicle solutions
• Starting at $14.00 per month plus data

Asset Tracking solutions
• Starting at $9.00 per month plus data
• For more information please contact your local AT&T Fleet Manager regional sales manager.

AT&T Fleet Manager

Important Information and Additional Terms

General: AT&T Fleet Manager ("Fleet Manager") is available only to enterprise and government customers with a qualified AT&T agreement ("Qualified Agreement"). Fleet Manager is subject to the Qualified Agreement, applicable Sales Information, terms and conditions found at http://resources.webtechwireless.com/ATT/doc/ATT-WTW_TC_Warranty.pdf ("Additional Product Terms"). For AT&T’s government customers on a Qualified Agreement: Any Additional Product Terms not allowable under applicable law will not apply, and the Qualified Agreement will control in the event of any conflict between the Qualified Agreement and the Additional Product Terms. May not be available for purchase in all sales channels or in all areas. Additional hardware, software, services and/or network connection may also be required. Availability, accessibility, security, delivery, speed, timeliness, accuracy and reliability are not guaranteed by AT&T. Additional fees, charges, taxes and other restrictions may apply. Offer subject to change.

Professional/Training Services: Upon completion of Professional/Training Services, Customer must either sign the acceptance document AT&T presents or provide within five business days of the service completion date written notice to AT&T identifying any non-conforming Professional/Training Services. If Customer fails to provide such notice, Customer is deemed to have accepted the Professional/Training Services. AT&T reserves the right to conduct work at a remote location or use, in AT&T’s sole discretion, employees, contractors or suppliers located within or outside the United States to perform work in connection with this offer. Customer will in a timely manner allow AT&T access as reasonably required for the Professional/Training Services to property and equipment that Customer controls. Customer will ensure that the location(s) to which access is provided offer(s) a safe working environment, free of hazardous materials and reasonably suitable for the Professional/Training Services. The Professional/Training Services provided will be performed Monday through Friday, 9:00 a.m. to 5:00 p.m., local time. For both Professional and/or Training Services, a separate statement of work describing the activity and related terms and pricing must be executed. If impediments, complications or Customer-requested changes in scope arise (Changes), the schedule, the offer, and the fees could be impacted. In the event any Change(s) affect this offer, or fees, the parties will modify Customer’s order (or statement of work, if applicable) accordingly by executing a Change Order.

Requirements; Technical Information: Minimum 2 MB Wireless Data Plan for each device is required for fleet tracking take out (PTCK or equivalent).

Coverage: Wireless coverage is not available in all areas. www.wireless.att.com/coverageviewer for AT&T’s wireless coverage. Wireless service is subject to transmission limitations and terrain, system, capacity and other limitations. Availability, security, speed, timeliness, accuracy and reliability of service are not guaranteed by AT&T.
