1. Voice services are provided primarily for live dialog between two individuals. Voice services may not be used for monitoring services, data transmissions, transmission of broadcasts, transmission of recorded material, or other connections which don’t consist of uninterrupted live dialog between two individuals. If AT&T finds that you’re using voice services for other than live dialog between two individuals and/or that your use of voice services for conference calling or call forwarding exceeds 750 minutes per month and/or your off-net usage during any two consecutive months exceeds 750 minutes, AT&T may, at its option, terminate your service or change your plan to one with no unlimited usage component. In addition, if your off-net voice usage during any two consecutive months exceeds the off-net voice usage allowance specified in your wireless service agreement, AT&T may, at its option, terminate your service, change your plan to one with a specified allotment of minutes or deny your continued use of other carriers’ coverage.

2. Coverage map shows high-level approximation of areas included in and out of plan. For the most current coverage info for your area, check att.com/coverageviewer. Coverage may include areas served by unaffiliated carriers. Arrangements with these carriers may change from time to time, and coverage is subject to change without notice. Service is intended for use primarily within the United States, Puerto Rico, and U.S. Virgin Islands (Domestic Coverage Area).
