This Attachment is not applicable if Customer is bound by General Terms and Conditions version 1.4 or higher.

1. **Wireless Mobile Internet Service.** Pursuant to the terms and conditions of the Agreement and this Attachment, AT&T will provide Service to Customer, its Affiliates and their respective Corporate Responsibility Users ("CRUs") and Individual Responsibility Users ("IRUs") through Equipment that is activated on the AT&T wireless GSM/GPRS, EDGE or UMTS network and related systems ("Wireless Mobile Internet Service"). CRUs and IRUs are, at times, referred to collectively as "End Users". Except as specifically provided for in this Attachment, the terms "Service", "Voice Service" and "Wireless Data Service" under the Agreement also include Wireless Mobile Internet Service. Similarly, except as specifically provided for in this Attachment, the term "Equipment" under the Agreement also includes Wireless Mobile Internet Equipment (see §4 below).

2. **Availability.** Wireless Mobile Internet Service is available for purchase in select AT&T Markets found at the Program Website, as may be modified by AT&T from time to time. AT&T may choose to block access to certain websites if, in AT&T's sole discretion, AT&T is experiencing excessive billing, collection, fraud problems or other misuse of the AT&T wireless network.

3. **Plans.** Customer may choose from select Plans (e.g., select Data Connect Plans) found at the Program Website, as may be modified by Cingular from time to time. Certain Plans are only compatible with certain Wireless Mobile Internet Equipment.

4. **Equipment.** Customer may purchase select Wireless Mobile Internet Equipment, the list of which is found at the Program Website, as may be modified by AT&T from time to time. The term "Wireless Mobile Internet Equipment" means the SIM (Subscriber Identity Module) Card and wireless receiving and transmitting equipment that AT&T has authorized to be programmed with a Number for use with Wireless Mobile Internet Service.

5. **Discounts.**

   5.1 **Service Discounts.** Except as set forth below and unless otherwise provided, AT&T will apply the Service Discount in connection with Wireless Mobile Internet Service in accordance with the Agreement. For Customers enrolled in the Aggregate Volume Reward ("AVR") Program, AT&T will not apply the Service Discount to Qualified Charges incurred in connection with Wireless Mobile Internet Service.

   5.2 **Equipment Discounts.** Subject to the restrictions set forth below, AT&T will provide Customer with the Equipment discount percentage set forth in the Agreement (the "Equipment Discount") with respect to Wireless Mobile Internet Equipment. AT&T will apply the Equipment Discount only to the prices set forth on the "Equipment" page of the Program Website, as may be modified by AT&T from time to time. AT&T will only provide Equipment with Service activated. The Equipment Discount will not apply to upgrade purchases with respect to any CRU more than two times in any twelve-month period and may not be combined with any other equipment offer. Data-centric Wireless
Mobile Internet Equipment such as modems, replacement SIM Cards and kits, and other accessories will not receive the Equipment Discount. AT&T will advise Customer when the Equipment Discount does not apply.

6. **Eligibility Requirements and MAC Contribution.** Subject to any restrictions set forth in the Agreement, Customer's End Users, together with their respective Wireless Mobile Internet Service usage (a) will count towards all of Customer's eligibility requirements under the Agreement; (b) will contribute to Customer's MAC; and (c) will contribute towards Customer's monthly volume of Qualified Charges in connection with the Attainment Service Discount program. For Customers enrolled in the AVR Program, Wireless Mobile Internet Service usage will not contribute to the monthly volume of Qualified Charges.

7. **Additional Terms and Conditions for Wireless Mobile Internet Service.** In addition to the terms and conditions of the corresponding Plans, the following terms and conditions apply to Wireless Mobile Internet Service:

7.1 **Payment.** Customer must pay all Service charges incurred in accordance with any AT&T wireless calling plan, service plan or rate plan (“Plan”), including, without limitation, charges for airtime, access, features, voice mail access, voice mail delivery, data usage, text and multi-media messages, downloadables, alerts, roaming, long distance, directory and operator assistance, Equipment, premium content, and charges for other goods and services that are charged through Customer's or CRUs' bill(s). Customer may be billed for multiple types of usage simultaneously. Customer must also pay Taxes and any Regulatory Programs Fee/Regulatory Cost Recovery Charge. For any termination (including when a Number is switched to another carrier), Customer will be responsible for payment of all fees and charges through the end of the billing cycle in which termination occurs. Payment is due upon receipt of the invoice. Monthly service and certain other charges for Service using the AT&T wireless network and related systems are billed in advance, and there is no proration of such charges if Service is terminated on other than the last day of the applicable billing cycle. Monthly service and certain other charges for Service using certain legacy networks and related systems are billed in arrears. In either case, to the extent Customer receives invoices for Service combined with a landline phone bill (where available), Customer will be billed in advance as provided above.

7.1.1 **Taxes.** Taxes include any applicable sales, public utilities, gross receipts, or other taxes, surcharges, fees and assessments imposed by governments (regardless of whether they are imposed on Customer, CRU, AT&T or a Carrier), including, without limitation, assessments to defray costs for government programs such as universal connectivity, enhanced 911 service, local number portability, and number pooling, relating to Service, Equipment, goods or services purchased, and the wireless network.

7.1.2 **Regulatory Programs Fee/Regulatory Cost Recovery Charge.** In addition to other charges, AT&T may assess a Regulatory Programs Fee/Regulatory Cost Recovery Charge, which is a monthly charge with respect to each CRU, that is created, assessed and collected by AT&T to help defray AT&T's costs incurred in complying with State and Federal telecom regulation; State and Federal Universal Service charges; and surcharges for customer-based and revenue-based State and local assessments on AT&T. These are not
taxes or government-required charges. AT&T may change the amount of the Regulatory Programs Fee/Regulatory Cost Recovery Charge without notice.

7.2 Charges. Wireless Data Service will be calculated and billed in kilobytes. One kilobyte equals 1024 bytes. One megabyte equals 1024 kilobytes. Utilizing compression solutions may or may not impact the amount of kilobytes for which Customer is billed. Wireless Data Service usage for each billing record will be rounded up to the next kilobyte and the charge will be rounded up to the nearest cent. Customer is responsible for all Wireless Data Service usage sent through the AT&T wireless GSM™/GPRS, EDGE or UMTS networks and related systems (for purposes of this Attachment, the “Network”) and associated with the Wireless Mobile Internet Equipment, regardless of whether the Wireless Mobile Internet Equipment actually receives the information. If Customer or a CRU chooses to connect Wireless Mobile Internet Equipment to a PC for use as a wireless modem, standard Wireless Data Service charges will apply in accordance with the corresponding Plan. Wireless Data Service usage is compiled as often as once per hour or only once every 24 hours. AT&T's system will then create a billing record representing (a) the Wireless Data Service usage for each data gateway or service accessed (e.g., WAP, RIM) while on the Network; (b) the usage for each Carriers' domestic network; and (c) the Wireless Data Service usage for each international network. In some situations, billing for Wireless Data Service usage may be delayed; any delayed usage will create additional billing records for the actual day of the usage. When using the Network for all incoming and outgoing Voice Service, the length of the call will be measured during the time that the call is connected to the system, which is approximately from the time the CRU presses the button which initiates or answers a call until approximately the time the first party terminates the call.

7.3 Equipment Compatibility. All Wireless Mobile Internet Equipment sold by AT&T to Customer will be compatible only with Wireless Mobile Internet Service provided by AT&T and will comply with federal standards. To the extent Customer obtains other wireless receiving and transmitting equipment that it intends to use with the Wireless Mobile Internet Service, Customer is responsible for ensuring that such equipment is compatible with the Wireless Mobile Internet Service provided by AT&T and complies with federal standards. Wireless Mobile Internet Equipment not purchased from AT&T or AT&T's authorized distributors (a) may not provide Customer with some or all of the features included in the Service; (b) may not allow Customer to use features and functions while off the Network, including those that work while on the Network; and (c) calls to 911 may not go through on any network. Call timers included on the Wireless Mobile Internet Equipment are not an accurate representation of actual billed usage.

8. General Terms and Conditions. In addition to the terms and conditions set forth elsewhere in the Agreement, the following terms and conditions apply to all Service:

8.1 Toll Free Calls. AT&T will charge 800, 866, 877, 888 and other "toll free" calls at domestic airtime or roaming rates. Customer is liable for such charges under §6 of the Program Description.

8.2 Billing Cycle Issues. With respect to Service, billing cycle end dates may change from time to time. When a billing cycle covers less than or more than a full month, AT&T may make reasonable adjustments and prorations. If a selected Service calling plan or rate plan includes a predetermined allotment of services (for example, a
predetermined amount of airtime, data, megabytes or text messages), any unused allotment of such services from one billing cycle will not carry over to any other billing cycle.

9. **Changes to Numbers.** Except as provided otherwise by law, Customer has no property rights to the Number, and AT&T may change any such Number. The definition of the term "Number" is expanded to include any number, IP address, e-mail address or other identifier provisioned by Carriers, their agents or the Equipment manufacturer to be used with Service.

10. **Additional Disclaimers.** In addition to the disclaimers set forth in the Agreement, AT&T MAKES NO REPRESENTATIONS OR WARRANTIES THAT SERVICE WILL BE ERROR-FREE, VIRUS-FREE, UNINTERRUPTED, OR FREE FROM UNAUTHORIZED ACCESS (INCLUDING THIRD PARTY HACKERS OR DENIAL OF SERVICE ATTACKS).

11. **Incorporation of Agreement.** The terms, conditions and defined terms set forth in all documents comprising the Agreement including, without limitation, this Attachment apply throughout all such documents.
