

1. Enterprise On-Demand

1.1 Eligibility. Pursuant to the terms and conditions of the Agreement and this Attachment, AT&T provides Customer the ability to conduct EOD Management through the Portal, and receive the EOD Invoice. Customer must be in compliance with the Agreement to be eligible for EOD. EOD is only available to Customer and its Corporate Responsibility Users ("CRUs"). EOD is not available to Individual Responsibility Users ("IRUs"). Except as otherwise provided in the Agreement, Customer must generate fifteen thousand dollars (\$15,000) in EOD Service Revenue per month to be eligible for EOD. For each month Customer fails to achieve this EOD Service Revenue requirement, Customer must pay AT&T the difference between \$15,000 and the EOD Service Revenue amount that Customer actually paid in such month. Notwithstanding the foregoing, this EOD Service Revenue requirement commences the seventh (7th) month after the month Customer makes its first EOD order through the Portal.

1.2 EOD Service. The Service available in connection with EOD (the "EOD Service") is either (i) EOD Wireless Data Service or (ii) EOD Wireless Data Service and EOD Basic Voice Service. Customer may not activate EOD Basic Voice Service as a stand-alone EOD Service.

2. EOD Management.

2.1 Ordering SIMs. Customer may purchase inactive SIMs from AT&T through the Portal. Except as otherwise provided in the Agreement, the purchase price for each SIM is five dollars (\$5.00) plus applicable taxes.

2.2 Initial Number Assignment and Subsequent Orders. Subject to (i) the availability of SIMs and Numbers, (ii) the imposition of additional processes on AT&T by third parties in order to obtain the SIMs and/or Numbers, and (iii) the capacity of AT&T's facilities, AT&T will supply SIMs and Numbers to Customer under normal circumstances within eight (8) weeks after AT&T's receipt of the completed Portal order.

2.3 Activation and Deactivation.

2.3.1 Orders. Customer may order Activations and/or Deactivations by submitting an activation request through the Portal. Each Activation request must include the ICCID number, the proposed activation date, the qualified Plan, the Place of Primary Use, and such other information as may be required by AT&T. Each Deactivation request must include the ICCID number and such other information as may be required by AT&T. Normal activation charges apply to Activations.

2.3.2 AT&T Response. AT&T will process Activations and Deactivations as soon as practicable following receipt of orders properly submitted through the Portal. Orders typically will be processed within four (4) business hours. Deactivations occurring mid-month will be charged the full month's Monthly Service Charge. AT&T has the right to unilaterally establish policies regarding the length of time between deactivating and reactivating the same ICCID.

2.3.3 Plans. Customer may only activate Numbers on Devices on the qualified Plans posted on the Portal. Such Plans consist of EOD Basic Voice Service Plans and EOD Wireless Data Service Plans, and any other Plan that AT&T makes available for EOD activation from time to time. AT&T may modify the list of qualified Plans posted on the Portal at any time. Such Plans list will also specify the Sales Information that is applicable to a particular Plan. Except as otherwise expressly provided herein,

Plans are subject to the terms and conditions set forth in such applicable Sales Information, which may be modified by AT&T from time to time and can be viewed on the Portal.

2.3.3.1 EOD Basic Voice Service Plans. An EOD Basic Voice Service Plan may only be activated (i) as an add-on to a qualified EOD Wireless Data Service Plan and (ii) on a Device that supports both Wireless Data Service and Voice Service. If EOD Wireless Data Service is deactivated, EOD Basic Voice Service is also automatically deactivated and the associated Number is released. EOD Basic Voice Service and the associated Number cannot be suspended and resumed. EOD Basic Voice Service Plans do not support certain features (including, but not limited to, Push To Talk, OfficeReach™, Enterprise Paging, AT&T® World Traveler, and Rollover® Minutes). Optional Voice Service features are subject to (i) Device compatibility limitations, (ii) EOD availability limitations, and (iii) applicable feature charges.

2.3.3.2 EOD Wireless Data Service Plans. EOD Wireless Data Service and the associated Number cannot be suspended and resumed. EOD Wireless Data Service Plans do not support certain features (including, but not limited to, Enterprise Paging and AT&T Wi-Fi service). Optional Wireless Data Service features are subject to (i) Device compatibility limitations, (ii) EOD availability limitations, and (iii) applicable feature charges.

2.3.4 Limitations.

2.3.4.1 Applications. Customer may only order Activations designated for use with AT&T-certified applications. Prior to ordering an Activation, any applications used by Customer in connection with EOD must pass all certification testing standards as may be established by AT&T from time to time.

2.3.4.2 Number of Devices. A Number may not be associated with more than one Device at the same time, unless otherwise approved by AT&T.

2.3.4.3 Activation Denials. AT&T reserves the right to deny an Activation if the corresponding Number or Device appears on AT&T's "service-deny" lists for one of a variety of reasons, including cases where the Device is stolen, has been used for fraudulent purposes, or is defective. AT&T will notify Customer in such cases with the denial reason. AT&T is not liable to Customer or any CRU if an Activation, modification, or other Service request is so denied.

3. Devices and SIMs.

3.1 Generally. Customer must purchase all SIMs for use with EOD from AT&T through the Portal. Customer may not purchase SIMs from any third party with respect to EOD.

3.2 Duty to Protect. Customer is responsible for safeguarding its Devices and such Devices' access to Service. For example, but without limitation, such safeguarding includes protecting its account information/Number, and by using firewall, anti-virus, anti-spam, or similar protective measures, all at Customer's sole cost and expense.

3.3 Order Limitations. Customer may only purchase SIMs in increments of fifty (50), or in other quantities as determined by AT&T in its sole discretion. Customer is only authorized to purchase a quantity of SIMs that may reasonably be used for Activations. AT&T may limit or cancel sales of SIMs to Customer if, in AT&T's discretion, an unreasonably high percentage of SIMs remain inactive. In addition to any other audit rights under the Agreement, AT&T may perform an audit of Customer's records and physical inventory relating to SIMs upon reasonable advance notice.

3.4 Prohibitions. Customer must not (a) program, re-program, or tamper with a SIM in any manner; (b) sell or convey a SIM in any manner other than to its CRUs as contemplated by this

Agreement.

3.5 No Third-Party SIMs and/or Devices. Customer may not purchase SIMs and/or Devices for use with EOD from any source not approved by AT&T, even if the SIMs or Devices originally came from AT&T. Customer may not use SIMs purchased from any party not authorized by AT&T in any Device to be activated on the AT&T Network. Customer must inform AT&T of any other individuals or entities that it learns are offering SIMs alleged to be compatible with AT&T's Network and must cooperate with AT&T in any investigation regarding such SIM distribution.

3.6 Return of SIMs. Upon the expiration or termination of the Agreement, Customer may promptly return all unactivated, undamaged, new SIMs in their original packaging in increments of 500 at Customer's expense that it has in inventory as of the date of such expiration or termination. AT&T will refund to Customer amounts paid for SIMs returned in such manner.

4. Portal. AT&T will provide Customer with the Portal, and Customer may use the Portal in accordance with and subject to the terms and conditions of the Agreement and this Attachment. Customer must supply all its own computer equipment, peripherals, Internet service, software and related means at its sole cost and expense. AT&T may reasonably rely on the authority and capacity of any person who executes an order on Customer's behalf and, accordingly, AT&T may rely on the information provided through the Portal. AT&T has no liability to Customer for Customer's inability to access the Portal for reasons beyond AT&T's control.

5. Simplified Billing. AT&T will provide Customer with a separate EOD Invoice each month. Additional billing detail will be available to Customer via: (i) a CD-ROM, which will be mailed to Customer monthly, and; (ii) the Portal. EOD information is not available through the WIN Advantage® software.

6. Discounts.

6.1 Service Discounts. Subject to the limitations set forth herein, and except as otherwise provided in the Agreement, the Service Discount will be applied to EOD Service.

6.1.1 MAC-Based Service Discounts. Customers on MAC-based Service Discount programs will receive the Service Discount on EOD Service; provided, however, that because the Service Discount percentage applied to EOD Service is only modified once a calendar quarter, and because such modification will not necessarily coincide with MAC modification(s) made by Customer, there may be periods where the Service Discount applied to EOD Service is different than the Service Discount applied to non-EOD Service.

6.1.2 Attainment-Based Service Discounts. Customers on Attainment or AVR-based Service programs will receive the Service Discount on EOD Service; provided, however, that because the Service Discount percentage applied to EOD Service is only modified once a calendar quarter, and because such modification will not coincide with the monthly Service Discount fluctuations available under these Service Discount programs, there will be periods where the Service Discount applied to EOD Service is different than the Service Discount applied to non-EOD Service.

6.1.2.1. Initial Attainment-Based Service Discount Percentage. The initial Service Discount percentage for Customers on the Attainment or AVR-based Service Discount programs will be based on the volume of Qualified Charges attained during the most recent full month prior to the corresponding Customer's first Activation on EOD Service.

6.2 EOD Service Revenue. Customer's CRUs with EOD Service and the EOD Service Revenue generated by such CRUs (a) will be included for purposes of determining whether Customer meets the program

eligibility requirements set forth in the Agreement and (b) will contribute to Customer's MAC or monthly volume of Qualified Charges, as applicable.

6.3 Equipment Discount. The Equipment Discount is not available with respect to Devices and/or SIMs purchased in connection with EOD.

7. Training and Technical Support.

7.1 Training. AT&T will provide limited telephonic training in the use of the Portal and initial Portal access for purposes of (i) online Activation and Deactivation, (ii) SIM ordering and inventory management, (iii) review of online billing, and (iv) reporting, to Customer-designated technical representatives.

7.2 Tier-One Technical Support. Customer's CRUs receiving EOD Service will not be able to access AT&T's Customer Care by dialing 611. Rather, Customer must maintain and staff a centralized information technology help-desk or a dedicated internal care group to manage Tier-One support for its CRUs in connection with EOD. Customer agrees to advise each CRU receiving EOD Service that he or she is not to call AT&T's Customer Care at 611 regarding the EOD Service and/or the Device.

7.3 Tier-Two Technical Support. AT&T will provide Tier-Two support to Customer in connection with EOD. Customer will cooperate with AT&T in any trouble-shooting that may be required to maintain the efficient operation of the Service and the Network. AT&T will not provide Tier-Two support directly to Customer's CRUs. Customer may escalate Tier-Two issues to AT&T only after clear identification and isolation of the issue with a reasonable determination that the error lies within AT&T's control.

8. Default. If Customer breaches any terms or conditions of this Attachment or the Agreement, then Customer will be in default and, in addition to any other remedies set forth in the Agreement, AT&T may (a) refuse Activation requests, and/or (b) modify or terminate Service with respect to one or more Numbers.

9. Miscellaneous.

9.1 Number Conservation. AT&T and Customer will follow reasonable Number conservation policies generally accepted by the telecommunications industry and AT&T may, from time to time upon reasonable notice, change Number assignments in conformity with such policies, including changes requested or ordered by federal or state regulatory authorities or by number administrators recognized by such authorities as having responsibility for the assignment of telephone numbers. If Numbers are unavailable, AT&T may follow generally accepted industry standards and/or regulatory requirements, if any, in responding to the shortage of Numbers. AT&T shall incur no liability to Customer for Number shortages.

9.2 Ownership of Numbers. Customer acknowledges that, subject to FCC number portability rules, neither it nor any CRU has or can acquire any proprietary right in any specific Number or Number block provided by AT&T.

10. Definitions.

10.1 Activation means the activation of a Number associated with a Device on a qualified Plan in connection with EOD.

10.2 Deactivation means modification or deactivation of a Number associated with a Device on a qualified Plan (as applicable) in accordance with EOD.

10.3 Device means a non-stocked, COAM (i.e., Customer owned and maintained) GSM, EDGE, GPRS, UMTS and/or HSPA compatible device used by Customer and/or a CRU to originate or receive wireless transmissions on the Network and (ii) that has been certified and approved by AT&T for the insertion of Customer SIMs and activation on AT&T's Network and intelligent roaming database.

10.4 Enterprise On-Demand means an expedited means for Customer to order and purchase SIMs and self-initiate Activation and Deactivation of EOD Service for itself and/or its CRUs, all as described in this Attachment..

10.5 EOD means Enterprise On-Demand.

10.6 EOD Basic Voice Service means the Voice Service available under EOD Basic Voice Service Plans in connection with EOD.

10.7 EOD Invoice means a consolidated, electronic monthly invoice for all EOD Service usage, together with a simplified printed bill aggregating usage across all Devices including, without limitation, a statement of the total amount due and owing.

10.8 EOD Management means Customer's ability to order, Activate, and Deactivate Numbers on Devices on qualified Plans in connection with EOD Service.

10.9 EOD Service Revenue means Service Revenue related to Customer's EOD Service.

10.10 EOD Wireless Data Service means the Wireless Data Service available under EOD Wireless Data Service Plans in connection with EOD.

10.11 ICCID means an Integrated Circuit Card Identifier, the number that uniquely identifies a SIM, found just under the logo on a SIM, and the last digit is preceded by a dash.

10.12 IMSI means International Mobile System Identity, the information that is stored on the SIM relevant to network selection in Global System for Mobile Communications ("GSM") systems, that contains the user identity module – mobile country code ("UIM-MCC") and the user identity module – mobile network code ("UIM-MNC").

10.13 Network means those integrated mobile switching facilities, servers, cell-sites, connections, billing systems and other related facilities used to provide the EOD Service in an area.

10.14 Portal means a custom World Wide Web portal, provided via a specialized URL, through which Customer's authorized representatives may conduct EOD Management.

10.15 SIM means Subscriber Identity Module, the specially programmed microchip inserted into a Device that (a) encrypts transmissions and identifies the user to the mobile network, and (b) provides network tracking, registration, and authentication services.

10.16 Tier One means internal support of first-line technical issues that may arise in connection with EOD including, but not limited to, those pertaining to Devices, software or application utilization, and any other such issues not specifically described as a Tier-Two issue.

10.17 Tier Two means technical support limited to: (i) Network errors, and (ii) Network environment engineering.
