**AT&T BUSINESS UNLIMITED<sup>SM</sup> BASIC WITH PRIVATE WI-FI PLANS: DATA RESTRICTIONS:** For all data usage, you may temporarily experience reduced speeds on these line(s) during times of network congestion. **VIDEO STREAMING:** Plan does not include the Video Management feature. We aim to render streaming video in standard-definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. Details at [att.com/VideoFeature](http://att.com/VideoFeature). **Tethering/mobile hotspot use is prohibited (except for Connected Cars).**

**AT&T BUSINESS UNLIMITED<sup>SM</sup> PLUS WITH PRIVATE WI-FI PLANS: DATA RESTRICTIONS:** After 22GB of data usage on a line in a bill cycle, for the remainder of the cycle you may temporarily experience reduced speeds on that line during times of network congestion. **VIDEO STREAMING:** Plan includes the Video Management feature. We aim to render streaming video in standard-definition (max 1.5 Mbps) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at [att.com/myatt](http://att.com/myatt) or [att.com/premier](http://att.com/premier) (as applicable). Details at [att.com/VideoFeature](http://att.com/VideoFeature). **TETHERING/MOBILE HOTSPOT:** Requires compatible device. Includes up to 15GB per line per month. After 15GB, tethering speed slowed to a max of 128Kbps for the rest of the bill cycle except for Connected Cars. After this, all tethering data usage will be impacted and not fully functional.

Other restrictions apply. **AT&T BUSINESS FAST TRACK:** Feature uses "always on" quality of service network technology to provide eligible CRU lines with a differentiated (i.e., enhanced versus "best effort") network experience for business data traffic originated on and traversing over the AT&T-owned domestic compatible network (i.e., excluding microcells, AT&T Wi-Fi service, and roaming partners' networks) during times of congestion. **Device Requirements:** Each line requires a compatible smartphone or tablet operating on an Android or iOS operating system; excludes BlackBerry devices. **Limitations:** AT&T Business Fast Track does not prioritize CRU's data traffic ahead of all other data traffic as other data traffic may receive a similar or higher quality of service. Feature is intended for business application data traffic. Feature does not provide priority access to available network resources or any preemption capabilities. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with its intended use or the Business Agreement.

**ALL PLANS: Eligibility:** Available only to business customers with a qualified wireless service agreement that includes, without limitation, the Additional Service and Equipment Related Terms found at [att.com/abs-addtl-terms](http://att.com/abs-addtl-terms) (Business Agreement). You will lose any available discount if you upgrade to a new smartphone with a service commitment. **AutoPay Discount:** Monthly discount off of plan charge (\$10 off single line plans and \$20 off multi-line plans) when active and enrolled in AutoPay. Discount starts within 2 bill cycles. Pay full plan cost (up to \$119/month) plus per device access charges until discount starts. **Multiple Phone Line Discount:** For AT&T Business Unlimited Basic with Private Wi-Fi plans – monthly \$15 (3 phone lines) or \$35 (4 or more phone lines) discount applied to your multi-line plan charge. Credit approval may be required. If you purchased a device that requires a service commitment, an Early Termination/Cancellation Fee applies if you cancel CRU service after the first 30 days and before the service commitment ends. See [att.com/equipmentETF](http://att.com/equipmentETF) for details on what fee applies for your device and how the fee is prorated over time. AT&T reserves the right to suspend or terminate service to your account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan. **ADDITIONAL MONTHLY FEES AND TAXES:** Apply per line and include Regulatory Cost Recovery Fee (up to \$1.50), Administrative Fee (up to \$1.99), Property Tax Allotment surcharge (\$0.20-\$0.45 per CRU number) and other AT&T fees which are not government-required surcharges, as well as government taxes. A limit on the number of financed devices per wireless account may apply. **Dedicated mobile hotspot devices and select laptop air cards are not eligible for these plans.** **Connected Wearables:** NumberSync pairing with compatible smartphone (sold separately) may be required to access cellular network. For a list of connected wearables, visit [att.com/wearableslist](http://att.com/wearableslist). **PRIVATE WI-FI APPLICATION (PWF App):** Requires a smartphone operating on a compatible iOS or Android operating system. CRUs must download the PWF App onto their compatible smartphones from generally available app stores, such as Apple iTunes® and Google Play®. The PWF App requires Customer and individual CRUs to accept the terms of a EULA prior to use. The terms of the EULA are located at [att.com/privatewifiterms](http://att.com/privatewifiterms). PWF App may result in increased battery usage by your device. Certain PWF App features are available on a subscription basis only. Private Wi-Fi is provided on an "as-is" basis with no warranties, and AT&T and its suppliers make no representations of any kind, express or implied, with respect to Private Wi-Fi. **Limitations:** Available only within the United States (**Domestic Coverage Area or DCA**). **Private Wi-Fi VPN:** Private Wi-Fi VPN establishes a highly secure proxy within your smartphone to encrypt unencrypted web and application data traffic as it travels over open Wi-Fi hotspots. Private Wi-Fi VPN does not guarantee complete security for your data and may be blocked by certain video streaming apps, in which case the data will bypass or disconnect the VPN connection. To ensure the service is properly provisioned, you may be requested to enable the "Location" feature on your smartphone. You must also separately give permission to allow the Private Wi-Fi VPN connection to be established. **Wi-Fi Alerts:** Wi-Fi Alerts notifies you when a Wi-Fi network you join with your smartphone appears to be risky or under attack. Wi-Fi Alerts automatically detects when your smartphone connects to a new network and runs a series of checks on that network to help ensure that it is behaving properly. If the network is deemed risky, the PWF App will provide you with instructions detailing how to disconnect from the network. **AT&T ACTIVEARMOR<sup>SM</sup> MOBILE SECURITY:** Requires compatible device and plan, download of ActiveArmor App and acceptance of terms of service (see [att.com/activearmorseula](http://att.com/activearmorseula)).
