# Transfer Music

To transfer music to your Samsung BlackJack™ device, you will need the following:

- Windows Media Player® loaded onto your PC. You can download this at: <http://www.microsoft.com/mediaplayer>
- Music on your PC in one of the formats: MP3, WMA, AAC.
- Microsoft® ActiveSync® software loaded onto your PC. This is included in your CD that came with your phone. Go to the Sync Contacts, Calendar, Email and More section of your *Getting Started Guide* for instructions. When the Sync Setup Wizard opens, cancel the window.

You are now ready to start transferring music to your device:

1. Open Windows Media Player® on your PC.
2. Connect the phone to your PC using the USB cable included in the Box. Microsoft® ActiveSync® is needed for the PC to recognize your Samsung BlackJack™, but Windows Media Player® is the software you use to actually download songs to your Samsung BlackJack™ device.
3. In Windows Media Player®, click Media Library.
4. In the pane on the left, expand the All Music category by clicking the plus sign next to it, and highlight the music you want to copy to your phone.
5. Right-click the music that you want to copy, point to Add to playlist, and then click Sync List. (If the Sync List is displayed, you can also drag and drop files to the list.) The songs are added to the Sync List in the pane on the right.
6. At the bottom of the Sync List, click Start Sync.

*Note: You can transfer music to your device using digital music stores as long as Microsoft® ActiveSync® is installed. iTunes is not supported. The number of files you can store depends on the size and format options of the memory card. A microSD™ memory card is preferable to copy songs to your phone.*

# Play Music
